1. At the request of the Plague Commissioner, Mr. A. Gopalacharlu, Secretary to the Srinivasa Mandiram Charities, asked the people assembled if they had anything to say regarding the measures that were being taken by Government for preventing the plague from coming into Bangalore.

Mr. Ahmed Shah, bamboo merchant, thought the prevalence of fever in the City was due to the impurity of the pipe-water. He was supported by a few others, but the Senior Surgeon did not think there was anything wrong with the water.

Mr. Lakshman Rao Sinde, said that unwholesome ghee adulterated with deleterious substances was being sold in the City and largely used by sweet-meat sellers; and that sweet-meat sellers sold stale and unwholesome eatables kept in exposed places, much to the injury of the consumers. Several others present spoke to the same effect. Gingelly oil and even kerosine oil, it was said, was being used by the native confectioners. The Plague Commissioner thought there was some ground for complaint and suggested to the Municipal Pr ent that specimens of ghee suspected to be adulterated and likely to be injurious to health might be sent to the Chemical Analyst for examination; and that more might be done in the way of prosecuting persons selling or exposing for sale articles of food injurious to health. The suggestion to insist on all sweet-meat sellers taking out licenses did not appear to receive much support.

Several gentlemen enquired what necessity there was for making arrangements to keep out the plague when it had not yet made its appearance in the City.

The Plague Commissioner explained that it was almost at our threshold, that it was an insidious, deadly and highly infectious disease; that the authorities were still in the dark as to how it spreads, that it may appear any day in the City, and that if it once established itself, it was extremely difficult to stamp it out. No remedy, European, Yunani, or Hindu, had up to now been discovered for the dire disease. The only way of protecting themselves was to keep out men and things likely to convey the infection and to attend to sanitation both private and public. It was further explained to the meeting that it was most important to detect the first case and isolate it.

The authorities were anxious that in carrying out the measures, there should be no violence to the customs and habits of the people. Government did not interfere in cases of ordinary disease, but plague was a highly infectious disease and it was necessary, in the interests of the public, that every precaution should be taken that persons attacked were at once segregated and were not allowed to infect the neighbourhood.

With this view, the authorities proposed to introduce what is called the "Supervision System" details of which are given in the Notification published in the *Mysore Gazette*. Briefly put, it meant that the City was to be divided into wards or blocks; each ward consisting of 100 to 150 houses; one or two leading men living in the wards would be asked under the advice of a Medical Board consisting of an English, Karnatic, and Yunani physician to visit the houses in the ward and bring to the notice of the Superintendent, who was to be in charge of these operations, any cases of plague or death from plague in his ward with a view to the parties being segregated.

It was unnecessary to repeat that lady doctors would invariably examine women suspected to be suffering from plague.

The meeting need not be troubled with the details of the census to be taken, of the forms prescribed and the orders about improved methods of reporting deaths. It will suffice to say that all these precautions were being taken for the benefit of the towns-people and would be worked by their own agency and by methods which were familiar to them and which therefore should not offend their social and religious susceptibilities

It was further proposed to have camps at convenient places outside the City for the different classes of the community where they could have their sick treated and the persons who had been in contact with the sick segregated and attended to in accordance with their own caste customs and treated according to their own system of medicine.

Every arrangement would be made for "gosha" being strictly observed.

It behoved the richer among each community to put up sheds for their caste-men on sites selected by the authorities. For the benefit of the poorer classes the Municipality had put up hospitals and segregation sheds where the poor will be treated, fed and clothed at public cost.

It was not absolutely necessary that affected persons should be removed to sheds, if houses in or near the affected area with a large compound and with plenty of air and sun-shine could be placed at the disposal of the authorities. They could be utilised for the benefit of the sick in mohallas close by; and even as regards persons attacked with the plague, removal to camps outside the City was not absolutely necessary if a good well-ventilated and sufficiently isolated part of the house could be made available for the patient. But it had been found by experience that isolution to camps away from the close atmosphere of the towns was best both in the interests of the sick and of those who were in contact with them as well as of those that lived in the neighbourhood.

Everything was being done in the way of opening out conservancy lanes and cleaning and flushing the drains.

The President was taking steps to prevent overcrowding, and to let in air and sunshine into houses which have been for years strangers to these health-giving agencies.

The Government will soon be moved to aid the Municipality with funds and also with skilled agency for giving the City a regular system of drainage and conservancy.

Mr. Sheer Khan enquired why the disease prevailed in Bombay in spite of all precautions. The Plague Commissioner said because precautions were not taken in time.

Mr. Muhammed Ghouse here referred to the question of supplying houses with pipe-water at small cost and said the present system placed many obstacles in the way of house service which was essential for drinking purposes and also for cleaning the drains. The Plague Commissioner said he would make a note of the matter.

Continuing, the speaker said that the people of the City were strongly against segregation.

The Plague Commissioner explained that it was a mistake to look upon Government as different from the people and think that the Government were forcing its measures on the people. Government, he would repeat, never interfered when there was ordinary disease in a house or even when there was cholera. But the meeting should remember that plague was a different matter. He admitted that segregation was an evil, but it had to be enforced for preventing an infinitely greater evil.

Mr. Timmappa, Mandi Merchant, said there was no necessity for segregation and that all that was needed was to make the sanitation of the City so thorough that the plague could not enter it.

Mr. Gopalacharlu explained, at the instance of Dr. Benson, that sanitation would take time but the plague would not wait.

Mr. Timmappa then suggested that the Gods should be propitiated.

Mr. Gopalacharlu here explained at length the nature of the disease and the paramount necessity that existed for taking the vigorous measures mentioned by the Plague Commissioner.

At the instance of Dr. Benson, it was explained to the meeting that air and sun-shine were the best preventives of the plague. In Bombay though the total number of deaths was enormous, not one soldier, sepoy, or bairagi had died of the plague. It was due to the fact that these people lived either in the open air or in well-ventilated houses.

Mr. Narainsami Setti brought to the notice of the Plague Commissioner that the prices of food grains and other articles of consumption had gone up considerably owing to the scare of the plague preventive measures.

The Plague Commissioner said that the alarm was groundless.

The Plague Commissioner wanted to get the sense of the meeting about the two questions discussed, *viz.*, the systems of supervision and segregation. About segregation he said there was no need to take immediate action.

Mr. Narainsami Setti explained that people had wrong notions about what Government intended doing, and said they were agreeable to the supervision system if it was carried out on the lines indicated by the Plague Commissioner.

It was announced to the meeting that Dr. Benson had undertaken to deliver a lecture on the plague in the district office compound some day next week.

The following is published for general information and for the information and guidance of all officers on Plague duty.

*The 17th February* 1898.

Intimation has been received from the Hyderabad Residency that plague in an epidemic form is reported to exist in the Naldrug and Gulbarga districts of His Highness the Nizam's Territory. The Railway stations in the latter (on the G. I. P. Railway) are Kulali, Ghangapur, Saraldgi, Gulbarga, Murtur, Shahabad and Wadi; and passengers from them should be deemed with reference to the regulations under the Epidemic Diseases Regulation, to have come from an "infected area."

## POLICE DEPARTMENT.

*Notice, dated 24th February* 1898.

A reward of Rs. 50 is offered by Mr. C. V. D Hay, Assistant Commissioner, Salt and Abkari Department, Trichinopoly, for the recovery of a rifle lost by him while he was travelling in a jatka from Kollegal to Maddur on the 2nd February 1898.

*Description of the Rifle.*

A double-barrelled central fire rifle by Tolly of Birmingham. On the plate under right hammer are the words "five drams" or "burns five drams powder." The back folding flap of the back sight is slightly dented at one end. The steel catch under the barrel which fixes the latter to the stock has recently been soldered and the rifle was in a long Sambar leather bag with leather strap and buckle at the heel.

It appears from Mr. Hay's report that the rifle could not have fallen from the jatka on the way. On his arrival at Maddur, he got into the train ordering his servant to bring his things and saw the rifle missing only after the train left the station. The jatka was reported to have been driven from Kollegal by a Muhammadan, and, from the 3rd mile from Maddur, by a Hindu.

The police are directed to search for the missing rifle and to communicate any information regarding it to the Office of the Inspector General of Police at Bangalore.

2. Consideration of the desirability of (1) issuing licenses to dealers in cocoanuts as in Civil and Military Station, (2) restricting the issue of tobacco licenses to purchasers of one maund and above in case of retail dealers and of 10 maunds and above in case of wholesale dealers, and (3) recovering a rent of Rs. 5 per month from Kotidars who sell less than 60 maunds of tobacco per month.

*Resolved* that the practice which now exists in the Civil and Military Station be ascertained and the information laid before the Board with regard to No. (1). The restriction to issue of tobacco licenses, retail and wholesale under (2) is approved. (3) The charge of Rs. 5 per month for rent from Kotidars be carried into effect.

3. Official Memorandum No. 7427—P. & A.—576, dated 29th December 1897, from Government, forwarding for report petition from Mr. M. B. Tivari, late Municipal Executive Engineer, as to whether he may be awarded a gratuity from Municipal Funds for the six years' service rendered by him in the City Municipality.

*Resolution.*—Proposed by Mr. Cameron and seconded by Mr. A. Somasundra Mudaliar that a gratuity according to Service Regulations be paid to Mr. Tivari, late Municipal Engineer. Amendment by Mr. Aga Abdulla that, as the services of Mr. Tivari were dispensed with by Government for inefficiency, he is not deserving of any gratuity. Seconded by Mr. H. H. Sparkes. Four in favor of amendment and nine in favor of original proposal, and the original proposition is carried.

4. Petition from recipients of ragi doles in langarkhana, praying for the continuance of increased rate of annas 8 lately sanctioned on account of high prices of ragi, &c.

*Resolution.*—The increased dole is sanctioned for a further period of three months, with effect from 1st January 1898.

5. Letter dated 12th December 1897 from Dr. D. A. Choksi, Municipal Commissioner, No. 1 Division, suggesting the desirability of forming a Sub-Committee for the purpose of investigating and reporting upon the question of opening out new conservancy lanes in the city.

*Resolved* that a Sub-Committee composed of the Senior Surgeon and Sanitary Commissioner, the Executive Engineer, and one Commissioner from each Division be appointed to consider all improvements proposed and that in order to prepare schemes of improvements in conservancy lanes a temporary establishment be employed costing not more than Rs. 100 per mensem.

6. Government Proceedings No. 7755-6—L. F. 215-96, dated 10th January 1898, forwarding copy of Sanitary Engineer's report *re* the impracticability of converting the Kumbargundi reservoir into a bathing ghat.

*Resolution.*—Recorded.

ADDITIONAL PROPOSITIONS.

I. That the house tax be raised from 5 to 6 per cent on the annual rental value instead of levying separately a house tax of 5 per cent and a lighting tax of 1 per cent.

Mr. Venkatramaiya, Municipal Commissioner, No. II Division, withdraws this proposition.

II That the Government be requested to hand over the local cess of one anna in the rupee on the Abkari Revenues of the Bangalore City.

*Resolved* that Government be addressed again on this subject, with a view of this cess being handed over to the Municipality as circumstances subsequent to 1879, when the Chief Commissioner had ruled against this cess being handed over to the Board, have considerably changed.

III. Proposed by H. H. Sparkes, Esq., Municipal Commissioner, that the question of a complete drainage system for the Bangalore City be discussed; that the services of some well-known experienced officer be requisitioned for the purpose of drawing up a scheme with plans and estimate on payment of a fee of Rs 2,500; that on approval by the Board the scheme be submitted to Government in view of obtaining the required amount of money on loan and the work put in hand with as little delay as possible.

*Resolution.*—The Commissioners are unanimously of opinion that this is a most important matter and one that ought not to be delayed any longer. That as the Sanitary Engineer has not been able to do anything towards the preparation of a complete drainage scheme for the City though the Board had asked for the same in Resolution VII (4) dated 26th June and 11th July 1893, that Government be now asked to sanction the preparation of a scheme by an experienced officer or expert to be arranged for by the Board, with a view to the drainage work being undertaken at once.

*Plague Commissioner in Mysore.*

No. 227—240.

RESOLUTION.

The Epidemic Diseases Act (III of 1897) empowers the Governor General in Council when satisfied that India or any part thereof is visited by, or threatened with, an outbreak of any dangerous epidemic disease, to take special measures over and above those permissible under the ordinary law, with the object of preventing the outbreak of such disease and the spread of it, and further authorizes the Governor General in Council by general or special order to direct that the powers conferred by the Act may also be exercised by any Local Government with respect to the territories administered by it. By the Home Department Notification No. 302, dated 4th February 1897, the Governor General in Council directed that the appropriate powers conferred by the Act might be exercised within their respective territories by the different Local Governments and Administrations in British India, and by Notifications issued in the Foreign Department the Agents to the Governor General were also empowered to issue regulations under the Act both in respect of parts of British India under their charge and in respect of territories in India under the administration of the Governor General in Council which are not parts of British India. The Government of India have themselves from time to time issued regulations under the Act in respect of matters in which Imperial interests were involved or action had to be taken by Departments under their direct control, but their object in delegating the powers conferred by the Act to Local Governments was to avoid hampering them in action taken by them to prevent the outbreak or spread of the plague and to admit of the regulations under the Act being adapted, so far as this is possible without preventing them from being effective, to local conditions and so as to respect local prejudices. Copies of all the regulations issued by Local Governments and Administrations have been communicated as they were issued by the different Local Governments and Administrations to the Governor General in Council for information, and under the orders of His Excellency in Council these have been examined on their receipt, and in any case in which they have been found to be in conflict with the general principles which have guided the Government in dealing with the plague the Local Government or Administration concerned has been requested to cancel or modify them. Experience in the working of the rules has been mainly obtained in the Bombay Presidency to which, with very few exceptions, plague has been hitherto confined, and, in view of the fact that the Plague Commission under Mr. Wingate accompanied by Dr. Cleghorn, Director General of the Indian Medical Service, have recently visited all the infected areas in the Bombay Presidency and, after examining the arrangements in force in each place, devised a set of rules of which the Government of India, subject to the remarks made in paragraph 11 of this Resolution as to the principles to be followed by medical officers in detaining passengers, approve, the Governor General in Council proposes to take the opportunity of communicating these rules to the different Local Governments and Administrations with the suggestion that they should be utilized as a model upon which to frame rules for other Provinces.

2. The Government of India desire to express their concurrence in the statement contained in rule 3 of the rules as to the measures which must be taken to combat an outbreak of the plague. The essential measures to be taken are (1) the early recognition of the disease in a locality, (2) the treatment of the sick in places of segregation, (3) the removal of the other inhabitants from the infected house, locality or area, (4) their segregation for a specific period, (5) the disinfection of their

persons, clothing and personal effects, (6) the disinfection of the houses in the infected locality and their contents, (7) the improvement of the ventilation of the houses, the abatement of overcrowding, and the prosecution of general measures of sanitary reform.

3. One of the main difficulties which have to be contended with in dealing with the plague is the absence of any efficient organization for the detection of cases before the outbreak has attained proportions which make it impossible to suppress it for a considerable time. Considering the extent to which fever prevails in the country and the ignorance of the agency responsible for reporting the occurrence and cause of deaths, it can hardly be expected that every case of plague will be brought to notice immediately after it has occurred, and it is very desirable that where there is any reason to suspect the existence of the disease a regular system for the detection of suspicious cases of sickness should be devised. Rules 4 and 9 of the Bombay Rules contain directions designed to secure the detection of the disease by improving the arrangements for reporting sickness and mortality, and the arrangements for rural areas described in rules 5 and 6 have for some time past been in force in the North-Western Provinces, the Punjab, the Central Provinces and Bengal. The occurrence of cases of plague in villages in the neighbourhood of Kankhal in the Saharanpur District of the North-Western Provinces has also led the Lieutenant-Governor and Chief Commissioner to issue orders for the employment of a special organization for ascertaining whether it has extended to places other than those in which it has been detected. This organization is based upon that which was so successfully utilized in distributing relief during the recent famine, and the essence of it is that a sufficient number of European officers should be employed to render the powers of search effective and at the same time prevent the subordinate establishments from abusing their authority. A copy of the orders issued by the Government of the North-Western Provinces and Oudh to the Commissioner of the Meerut Division is appended to this Resolution, and the Governor General in Council desires to commend them to the consideration of other Local Governments and Administrations in case there should at any time be reason to suspect that plague exists and has not been detected. For the purpose of supervising work of this nature young officers of the Staff Corps, will, the Government of India believe, be found to be a most suitable agency should the Civil Establishments be insufficient and though it may not be possible to procure the services of such officers in any numbers at the present juncture, the Government of India will endeavour, should the necessity arise, to procure them from the Military authorities when the operations at present being carried out on the North-Western frontier have terminated.

4. Another measure which has been put forward as an effective means for ascertaining the existence of plague is the inspection of corpses. The Government of India have consulted Local Governments and Administrations as to the question whether corpse inspection is a reliable means of bringing facts to light and whether the feeling of the people is opposed to it or not. The Governor General in Council has not yet received all the replies to the reference made upon this question and it will be dealt with separately later on. On the information at present before them it appears to the Government of India to be doubtful whether the measure is likely to be of great assistance, and they fear that its general introduction would be repugnant to the feelings of the people.

5. The system prescribed in Rule 10 and the following rules issued by the Bombay Government for the division of towns which are infected or liable to infection into quarters or divisions of a size convenient for effective supervision meets with the approval of the Government of India, and in this, as indeed in all the measures taken for the suppression of the plague, it is essential to secure the supervision of an European official who will carry the people with him, and see that their customs and susceptibilities are as far as possible respected.

When search parties are organized to ensure that all cases of the disease are brought to notice, and this measure will, it appears to the Government of India, be found to be a very necessary one at any place where an outbreak occurs, endeavour should be made to associate respectable native gentlemen with them, and female medical attendants should accompany them for the purpose of examining females.

6. When plague actually breaks out the segregation of the sick and of the persons who have been in immediate contact with them is a fundamental precaution which is essential to the successful issue of any operations against it. In devising means to secure this object it is necessary on the one hand to consider the urgent necessity of preventing sufferers from plague from spreading the infection among their neighbours, and on the other hand the great importance of interfering as little as possible with the customs and the feelings of the community. The Governor General in Council considers that experience has shown that in order that segregation may be efficacious it must be carried out in hospitals or other suitable places specially appointed for the purpose. A measure of this nature can hardly be expected not to cause alarm among a people many of whom regard the privacy of their houses as sacred, and this feeling can only be allayed if those affected by it have confidence in the motives of Government and believe that it is actuated solely by a desire to stay the pestilence. The Governor General in Council has been much impressed by the readiness and docility with which the people in many of the infected areas have discarded their prejudices and submitted to removal from their houses, and His Excellency in Council feels confident that, if the necessity for the measure is carefully explained to them, the co-operation of leading men obtained as far as possible, and every consideration shown to the feelings and habits of those to whom the regulations have to be applied, this measure will be accepted without objection by the people of a locality in which plague has made its appearance. But it appears to His Excellency in Council that the prospect of such action being required of them in the event of plague appearing in their midst may not unreasonably seem distasteful to them so long as there is no immediate danger of an outbreak, and it is therefore desirable to, as far as possible, remove any cause for discontent by encouraging the people themselves to make arrangements for the establishment of private hospitals and segregation camps for particular castes, classes,

joint families, and associations of families in anticipation of the necessity for their removal from their own houses arising. The equipment and administration of such hospitals must be approved by duly appointed authority. They should be conveniently placed and it is not necessary that they should be located in remote situations. They should not, however, be situated in houses which are actually inhabited or blocks of houses or streets, for in the event of an outbreak of plague, cases of the disease might occur in the house or block which it would then be necessary to completely evacuate. While His Excellency in Council is strongly of opinion that in carrying out any measures of segregation regard should be had, as in the case of Europeans, to the position in society of those classes of the native community who can be relied on to take efficient measures with the object of preventing the spread of infection, and to other considerations of a like nature, it is not, he fears, possible save in the most exceptional cases (as for instance that of a house located in a large garden, in which a hospital or private camp can be located at a distance from the house actually infected) to permit the residents of an infected house not to evacuate the area in which it stands. His Excellency in Council therefore anticipates that in a crowded city there will be few, (if any), houses which it will be safe to license as hospitals or for segregation purposes. In public as well as in private plague hospitals all possible consideration should be shown to the feelings of the inmates, and in especial caste distinctions and the privacy of females who do not appear in public should be carefully be respected. His Excellency in Council also considers that it is neither necessary nor humane to separate the sufferers from their families and friends, and all plague hospitals, whether Government hospitals or private caste hospitals, should therefore be arranged so as to provide separate accommodation for the immediate family or friends of the patients. For the public hospitals it will be found convenient to utilize schools and other public buildings which are available and suitable.

7. Before leaving the subject of segregation the Governor General in Council desires to say that, while it has not yet been shown that inoculation with prophylactic *serum* such as has been prepared by M. Haffkine, C.I.E., can be relied on as a means to prevent the spread of plague, the results of the experiments made are so distinctly encouraging that he is not without hope that it may be demonstrated that protection may be ensured by means of prophylactic inoculation. It is desirable that every opportunity should be taken to test the efficacy of inoculation, and the Governor General in Council will feel obliged if Local Governments and Administrations, within whose territories plague now exists or may appear in the future, will place themselves in communication with M. Haffkine in order to procure a supply of *serum* for the use of persons who desire to have themselves inoculated. No person should be inoculated except with his express consent. In the event of the efficacy of inoculation being eventually established, it will, it appears to the Government of India, become possible to dispense with segregation in the case of persons who have undergone the process of inoculation. Even in this case it will, however, still be necessary to require the evacuation of infected houses and localities with a view to their thorough disinfection for the purpose of destroying the germs of infection.

8. The rules issued by the Bombay Government for the removal and burning of the clothing of a patient suffering from plague, for the disinfection of all those removed from the infected area whether to the camp for suspected persons or to that for the healthy, and for preventing the re-occupation of houses in the infected area until a certain time after they have been evacuated, cleaned and disinfected, appear to the Government of India to be full and satisfactory. The Governor General in Council desires to impress upon Local Governments and Administrations the paramount importance of making efficient arrangements to prevent people from returning to occupy evacuated houses before the time specified, and of securing that all articles likely to convey infection are without exception removed from infected houses and immediately destroyed or disinfected.

9. It seems to the Government of India desirable to express their views upon the subject of quarantine in relation to the suppression of plague. Her Majesty's Government and the Government of India have continuously been opposed to the view that the spread of epidemic disease can be effectively checked by the imposition of quarantine so as to prevent the movement of the people to other places from areas in which epidemic disease prevails. The first reason which has led the Government of India to this conclusion is that it is impossible to make any system of land quarantine in India effective. It could, indeed, be arranged that every traveller by railway should on leaving the infected area be placed in a segregation camp for a given time, but any attempt to block all the roads and paths from the infected area must be defeated, firstly, because the Government has not at its disposal the necessary establishments to make such a stoppage of the traffic effective, and, secondly, because the establishments could not be relied on to carry out the duty. But even could it be made effective, a system of land quarantine would, in the opinion of the Government of India, be mischievous in itself and calculated to foster rather than to suppress an outbreak of epidemic disease. It is in appearance so easy a remedy that if adopted it would be apt to distract attention from those surer and most essential measures which, if plague is to be suppressed, must be taken at the place where the outbreak occurs. It causes hardship and suffering to the people who have to be detained, and it affords opportunities of every kind for bribery, blackmail and extortion to the subordinate establishments employed to enforce it. The collection in camp of large bodies of people who have previously been subject to the risk of plague infection involves danger of an outbreak of the disease in the camp, and may thus establish fresh *foci* for the dissemination of the disease. The views held by the British Government and the Government of India on the subject of quarantine were for a long time resisted on the Continent of Europe, but they have now been accepted by the European powers, and in the Dresden Conference of 1893, to which the Government of India declined to become a party for other reasons, the uselessness of land quarantine was for the first time recognised by them in respect of cholera. Prior to the assembly at Venice in the spring of 1897 of the delegates deputed to concert measures to prevent the introduction and spread of the plague in Europe, the Governor

General in Council had considered and rejected a proposal to place in quarantine the whole of the Bombay Presidency owing to the outbreak of plague within it, against the rest of India. In paragraph 3 (iii) of the Home Department letter No. 1623—26, dated June 1st, 1897, addressed to the Maritime Governments, it was noticed that the Venice Convention provided that the modern principles of disinfection should be substituted for the obsolete system of land quarantine, but, with a view to the protection of the countries which may find it difficult to thus protect their borders, each of the Governments who are parties to the Convention is at liberty to close its frontiers to travellers and merchandise. The Convention also, while condemning land quarantine in general terms, permits Governments to reserve to themselves the right to take special measures with regard to certain classes of people specially—

A.—Gipsies and vagabonds.

B.—Emigrants, and persons travelling or crossing the frontier in large bodies.

10. Proceeding on the principles embodied in the Venice Convention the Government of India have, from time to time, expressed an opinion adverse to the establishment of cordons designed to keep the population within an infected area and have declined to agree to the general prohibition of the booking of passengers by railway to or from particular places, or to the prohibition of the booking of passengers travelling by a particular class. The detention of the inmates of an infected locality within the area of infection by means of a cordon is apt to increase the virulence of the disease, and therefore also the danger of its dissemination, by fostering the local conditions which are a main cause of its development. Experience shows that ordinarily on the outbreak of plague in a town of which part is infected and part is not, it is desirable, concurrently with the removal to a segregation camp of the inmates of the infected localities, to encourage the healthy population to leave the infected area before the disease becomes thoroughly diffused through it. But there may be cases in which the area of infection being small it may be possible to entirely evacuate it and to place the inmates of it in isolation at a place in the near neighbourhood. A guard may unobjectionably be utilised to keep the population under medical supervision within the healthy area in which it is determined to isolate them both with the object of preventing their return to the infected houses and also to minimise the possibility of infection being carried elsewhere. In such cases if proper arrangements are made for separate camps for the sick, the suspected, and the healthy, there is little or no danger of establishing a *focus* for the dissemination of the disease, while the control of the guard can be made effective and malpractices on the part of the subordinate establishments be prevented if European agency is employed on the spot to supervise such establishments, and to check, by a system of registering the inmates of the camps, the attempts which may be made to leave them.

11. In accordance with the principles explained above the Government of India have restricted the interference with the movement of the general public by railway to medical inspection. In the terms of the Venice Convention medical intervention is restricted to the inspection of travellers with a view to the detention of those who show symptoms of plague and to the care of the sick. The Convention also dwells on the desirability of keeping under supervision all travellers from an infected area at their homes for a period of ten days from the date of their departure from the infected area. The Government of India approve of the medical inspection being conducted so as to provide for the detention in the observation camp provided for this purpose not only of persons in whom symptoms of plague or suspicious symptoms are discovered, but of all persons from the infected area who appear to be suspicious by reason of their appearance, the dirty condition of their clothes, the fact that they are travelling in gangs or belong to classes which are likely to disseminate the disease or cannot be traced on arrival at their destination or depended upon to give information should plague occur among them after arrival at their destination. All other persons should be allowed to proceed to their destination after inspection, and the rules should not, under any circumstances, exempt from their operation any class of persons as such, or be limited to persons who travel by railway by a particular class.

12. While these are the general principles which should guide the different Local Governments and Administrations in their control over the movements of the general public travelling by railway from an infected area it may often be advisable to interpose special checks either on the movement of pilgrims from an infected area to a place of pilgrimage beyond that area, or on the movement of pilgrims to a place of pilgrimage at which plague exists. When plague exists at a place of pilgrimage it may indeed be generally the most prudent course as well as the course which will in the end cause least interference with the people to definitely prohibit the religious fair at which the pilgrims intend to collect. But there may be special circumstances in which this course may seem to be inadvisable, and in such cases it appears to the Government of India that the booking of pilgrims to the place of pilgrimage or the neighbouring railway stations may be, without objection, entirely interdicted for the time. Where, on the other hand, the place of pilgrimage lies outside the infected area and it is ordinarily visited by pilgrims from the infected area it is legitimate and advisable to prohibit for the time the passage by railway of pilgrims from the infected area to the place of pilgrimage, and in accordance with these considerations the Government of India have from time to time, during the outbreak of plague, issued orders prohibiting the sale of tickets in the Bombay Presidency to pilgrims desirous of visiting other parts of India.

ORDER—Ordered that a copy of this Resolution be forwarded to Local Governments and Administrations, and to the Foreign, Public Works and Military Departments.

[ENCLOSURES TO THE ABOVE.]

Enclosure No. I—Has already been printed in the *Mysore Gazette*, dated 3rd February 1898, Part II, Pages 167—171.

Enclosure No. II—No. 37, dated the 13th January, 1898.

From—W. H. L. Impey, Esq., Secretary to the Government of the North-Western Provinces and Oudh, Sanitation Department.

To—The Secretary to the Government of India, Home Department.

I am directed to forward, for the information of the Governor General in Council, copy of a letter No. $\frac{20\text{-A}}{\text{XVI-404-B.}}$, dated 8th January 1898, to the Commissioner of Meerut, conveying instructions with reference to the operations for the prevention of the spread of plague in the neighbourhood of Hardwar.

No. $\frac{20\text{-A.}}{\text{XVI-404-B.}}$, dated the 8th January 1898.

From—The Secretary to the Government of the North-Western Provinces and Oudh,

To—The Commissioner of the Meerut Division.

Eleven cases of illness believed to be plague have now been reported from the village of Jaggitpur, 1½ miles distant from Kankhal. The discovery of a case of plague, reported to-day, in Ranimazra, a village eight miles distant from Kankhal, suggests the possibility of a wider prevalence of the disease than has hitherto been suspected. For some time past men have been employed searching the villages in all directions in the neighbourhood of Kankhal; but it is now necessary to organize on a wider basis a regular system for the detection of suspicious cases of sickness and for the treatment of villages found to be infected. Energetic measures of a far-reaching character must be at once adopted.

2. The plan which the Lieutenant-Governor and Chief Commissioner has decided to adopt is that which proved successful in distributing relief during the recent famine, *viz.*, to place a sufficient number of European officers at the disposal of the Commissioner and to divide the tract concerned into convenient charges for each of these officers. I am to request you to at once determine the area of country to which suspicion of infection attaches, taking Hardwar as the centre of operations. Your determination of the area should be so wide as to exclude the possibility that any infected village will escape. Your delimitation should include not only villages in the Meerut Division, but also those in the adjacent districts of the Rohilkhand Division which may appear to be within the zone of infection. The search parties recently at work will, no doubt, be able to afford you valuable assistance in determining this area.

3. Having determined the area to be dealt with, this must be divided into plague sub-divisions of a size suitable for the charge of a single officer. Two Assistant Magistrates (Messrs. Morris and Walker) have been deputed to Hardwar, and the Inspector-General of Police has been requested to send as well a selected Assistant Superintendent of Police. These three officers will be available for employment as officers in charge of plague sub-divisions in addition to those already on the spot. Each sub-divisional officer should have attached to him—

(1) an assistant of the stamp of Tahsildar or selected Naib Tahsildar;

(2) a selected Sub-Inspector of Police; and

(3) an Assistant Surgeon or a selected Hospital Assistant.

Some clerical establishment and orderlies will also be required. Each sub-divisional officer will be allowed a permanent advance of Rs. 500, out of which he will keep his circle and sub-circle officers in funds, submitting detailed bills when recouping his permanent advance. It may be noted that the cost of constructing segregation huts, cleaning up, &c., should be borne by the landlords and villagers themselves so far as it may be possible to effect this.

4. Each plague sub-division must be sub-divided into circles, and these again into sub-circles, if necessary. Over each circle an officer of the standing of Naib Tahsildar on a pay of Rs. 50 per mensem, with a chaprasi on Rs. 5

per mensem, must be appointed, to be employed on plague work only. He may, if desired, be a selected Kanungo, but in that case he must be relieved of all other work. The size of each circle should not be greater than will admit of each village being visited at furthest once in three days by the Circle officer. If the disease spreads, each circle may be divided into sub-circles in the charge of a selected patwari on Rs. 10—15 per mensem.

5. The organization above described having been effected, the officers will set to work to examine every house and every inmate of every house in every village and hamlet in the circle, care being taken that native customs are respected, and that no woman who observes pardah is inspected by a man. The examination having once been made and the sub-divisional officer being satisfied that plague does not exist in the village, effective arrangements must be made for obtaining immediate information of cases of illness and of deaths. It would be unnecessary to repeat the examination unless a village was subsequently believed to be infected. The services of the landlord's agents, the lambardars and patwaris will be utilized as they were in the organization of village gratuitous relief. If the village inspection brings to light any suspicious cases, the procedure for dealing with them is laid down in Parts I and II of the rules issued under the Epidemic Diseases Act and in annexure I to these rules. Copies of the rules, as amended up to date, will be supplied for use of the officials. It may be considered certain that no one afflicted with plague in an ordinary village house can be properly segregated in that house, and that imminent danger to all in the house and to the neighbours exists if the sick man is not at once removed to a suitable hut outside the village, and Rule 6 (1) of the annexure may be regarded as suspended so far as concerns home segregation. Therefore suitable huts for the sick and for their attendants and friends should be constructed on a suitable shady site removed from the village immediately on the occurrence of the first suspicious case.

6. It would, of course, be best to have the whole village in which a case of plague occurs evacuated until disinfected; but this may not be always possible, and the sub-divisional and circle officers must do the best they can, beginning with the evacuation of the house, widening the circle to the block and, if necessary, to the whole village. When a case of plague occurs in a village, the people of the adjacent villages should be urged to place that village in quarantine and to have no communication whatever with it.

7. The Collector of the District (who must, for the present, make Hardwar or Rurki, or such other place in the sub-division as may to him seem best, his head-quarters, and be in general charge of the operations) will make the best use he can of the superior medical establishment, and all sub-divisional and circle officers shall be bound to regard the suggestions of the medical officers so far as practicable.

8. The circle officer (or sub-circle officer) will send every evening to the sub-divisional officer a statement showing—

(1) the number of villages or hamlets visited by him during the day;

(2) the number of houses examined,
(3) the number of persons found with suspicious symptoms,
(4) number of persons ill with plague,
(5) number of persons (other than those shown in columns 3 and 4) segregated,
(6) number of deaths during the day,

} in each village or hamlet visited.

The sub-divisional officer will transmit a daily abstract of these reports for his sub-division to the Collector and to the chief local medical officer having medical charge of the plague operations. The chaukidar of each village should be required to report every death or case of serious illness in his village to the sub-divisional or circle officer, as well as to the officer in charge of the police station. I am to inquire whether the rules in force at Hardwar requiring all cases of sickness to be reported and notice to be given of the removal of a dead body from a house should be extended to the suspected area.

9. It is believed that the establishment now at your disposal for dealing with Kankhal and the surrounding country consists approximately of the officers noted on the margin. Now that disinfection work at Kankhal has lessened, some of the officials can, no doubt, be spared for other duties. You have applied to-day by telegraph for—

*Civil.*

Collector.
Joint Magistrate.
1 Staff Corps officer.
1 Tahsildar.
3 Naib Tahsildars.

*Medical.*

2 Commissioned Mdl. officers.
5 Assistant Surgeons.
28 Hospital Assistants.
3 Compounders.
4 Dais.
10 Vaccinators.

*Police.*

1 European Inspector.
15 Sowars.
26 Head Constables.
130 Constables.

1 Tahsildar (Suraj Bhan Prasad).
2 Assistant Surgeons.
10 Hospital Assistants.
1 Hindu Inspector of Police.

These officers will be deputed as requested, but I am to say that the reserve of subordinate medical officers has become exhausted, and that it will be difficult to comply with further demands. After determining the extent of the suspected area and the number of circles into which it should be divided, you will be able to allot the required officers to each circle and to report by telegraph whether the present establishment requires to be strengthened in any way.

10. I am to ask that a very early report may be submitted of the action taken on the letter. You should, before leaving Hardwar, assure yourself that substantial effect has been given to these instructions. Especially you should concert with the Commissioner of Rohilkhand, who will be instructed to meet you for the control by Mr. Winter of the operations not only in the Meerut, but in the Rohilkhand Division. Should you be of opinion that the duties imposed by these orders are too onerous to be controlled by Mr. Winter while also discharging the functions of Collector of Shaharanpur, the Lieutenant-Governor will be prepared to consider any proposal you may make on this head.

But there is advantage in Mr. Winter's continuing to be the district officer able to direct to a particular end the district organization. An Additional Joint Magistrate might be sent to Shaharanpur if that were ultimately found necessary.

1. The following estimates were sanctioned, their cost being met from the amount provided in the current year's budget under "A. Public Works V. Reserve" :—

(1) Estimate for repairing the 3rd class travellers' bangalo at Turuvekere, Rs. 103.
(2) Estimate for repairing the 3rd class travellers' bangalo at Huliyar, Rs. 331.
(3) Estimate for constructing one vent tunnel in $\frac{4}{9}$ mile Tumkur-Chelur road, Rs. 98.

2. Read letter No. 858—6195 of the 4th December 1897, from the Secretary to the Government of Mysore, Public Works Department, informing that as the Public Works grant now stands, it is absolutely impossible to take over the Tumkur-Kunigal road to "Provincial" or even to sanction the smaller of the two estimates for metalling it, *viz.*, estimate for Rs. 30,737 for metalling 3 yards wide and $4\frac{1}{2}''$ deep, though metalling on the larger estimate, *i. e.*, the one for Rs. 50,405 for metalling

4 yards wide and 6″ deep is very desirable; that a grant from the Local Funds General cannot be made for such purpose as metalling a district cross road and that the District Fund Board should do the work from its own resources.

*Resolved* that this be recorded. The District Fund Board is unable to sanction any of the estimates for metalling the road throughout. They can only metal the worst furlongs for which an estimate of Rs. 5,068 had been submitted by the Executive Engineer. This estimate will be considered at the next meeting and if approved funds will be provided for in the budget for 1898-99.

3. Read Executive Engineer's letter No. 326, dated 16th May 1897, forwarding a revised estimate for Rs. 5,369 for opening a cart-track from Chiknayakanhalli to Hagalvadi, *viâ*, Madanamadu, 19 miles.

*Resolved* that the estimate be approved and that provision be made therefor in the next year's budget.

4. Read Executive Engineer's docket No. 415, dated 9th September 1897, forwarding copy of Superintending Engineer's No. 2853 of 28th August 1897, addressed to Executive Engineer, asking him to ascertain definitely from the President and to report the result for orders when the question as regards the transfer of the school house at Koratagere to the Medical Department for use as dispensary is finally settled.

*Resolved* that as the Educational Department has declined to transfer the school building to the District Fund Board for the purpose of the dispensary, the dispensary shall continue to be located in the Taluk Cutcherry building as at present.

5. Read Executive Engineer's docket No. 662, dated 23rd September 1897, forwarding copies of correspondence passed between the Chief Engineer, Superintending Engineer and himself as regards certain inspection lodges being converted into 3rd class travellers' bangalos and stating that there are three inspection lodges in the district, *viz.*, Chiknayakanhalli, Bukkapatna and Amertur with a suggestion that the first two lodges may be converted into 3rd class travellers' bangalos.

*Resolved* that the lodges at Chiknayakanhalli and Bukkapatna be recommended to be converted into 3rd class travellers' bangalos—the sweepers getting an allowance of not more than Rs. 2 each per mensem and that the Amertur lodge may remain with the Public Works Department.

6. Read Executive Engineer's dockets Nos. 692 and 693 of the 7th October 1897, forwarding copy of his report No. 378 to the Superintending Engineer, Eastern Circle, and the latter Officer's reply thereto No. 3203 of the 20th September 1897, sanctioning an estimate for Rs. 1,200 for annual repairs of Tumkur-Chelur road and directing the Executive Engineer to represent to the Board the necessity for raising the mileage rate for this important road and report the result.

*Resolved* that the above communication be recorded with the remark that the Board are unable to increase the mileage allotment for this road. Arrangements are being made to metal a portion of this road, *viz.*, that from Tumkur to Bellavi.

7. Read letter No. 884, dated 15th December 1897, from the Executive Engineer, Tumkur division, stating that the bridge near Mayasandra on the Nelligeri-Sira road and the one near Gubbi on the Gubbi-Hebbur road were washed away during the year; that rupees three to four thousand are required for the re-construction of each of these bridges and that Rs. 1,000 for each of these works may be placed at his disposal this year.

*Resolved* that as the cost of these bridges, ranging as it does between six and eight thousand rupees, cannot be met from the sum allotted for the ordinary expenditure of the year, the Government be applied to undertake the works from the Provincial budget.

8. Proposed by Mr. Tatachar of Pavagada, that the cart-track from Pavagada to Hindupur *viâ* Dommatamari be improved.

The present road to Hindupur *viâ* Madakasira is sufficient for all immediate requirements. The question of improving the cart-track *viâ* Dommatamari should be considered as a Famine Relief work.

## KADUR DISTRICT.

*The 17th March* 1898.

It is hereby notified that in satisfaction of arrears of land revenue due by Mrs. Rosa Augustine Cohelo and Dr. Sydney Smith, revenue defaulters, the undermentioned immovable property, the occupancy of which has been declared to be forfeited, will be sold by public auction at Melanhulvatti village, Chikmagalur taluk in the Kadur district, by the Amildar, on Monday the 25th of April 1898. The sale will commence at 11 A. M., and the property will be knocked down to the highest bidder without reserve.

2. The amount of revenue payable by the purchaser up to end of year 1896-97 is Rs. 824-2-0 as shown in detail in the statement at foot.

3. Purchasers will be required to deposit twenty-five per cent of the purchase money at the time of sale, and where the remainder of the purchase money may not be paid within fifteen days from the day of the sale, the money so deposited shall be liable to forfeiture.

4. When such deposit shall not be made, nor the remaining purchase money paid up, the property shall be re-sold at the expense and risk of the first purchaser.

5. Persons bidding at the sale may be required to state whether they bid on their own account, or as agents, and in the latter case, to deposit a written authority signed by their principals; otherwise their bids may be rejected.

6. The sale shall be stayed if the defaulter, or any person acting on his behalf or claiming an interest on his behalf in the property, tenders the full amount of the arrears of revenue with the interest and other charges, provided such tender be made before the property is knocked down.

7. The sale of the property will not become absolute until confirmed by the Deputy Commissioner.

The Plague Commissioner explained to the meeting that in view of the facts that the plague showed no signs of abating in Bombay and that some indigenous cases had occurred in Hubli, the preventive measures proposed to be adopted at the last meeting required to be taken in hand at once. In the matter of segregation sheds, those put up by Government near the Magadi Chattram Hospital were intended for the general public. It may not be possible to make provision there for the requirements of each separate caste. The authorities had selected other sites outside the limits of the town, and expected the richer members of each caste to put up caste sheds on these sites where their own castemen could be attended to, and if they so wished, treated by their own Hakims and Vydias.

*Quite right.*—P. H. B.

Messrs. Khasim Saheb and Narana Setti said that as there had been no plague cases in Bangalore, putting up sheds would only cause unnecessary alarm. The Plague Commissioner explained that preventive measures had to be taken before the plague actually appeared. Everything was being done solely for the benefit of the people, and the alarm and panic will be too great when the first real case of plague had to be dealt with for any satisfactory arrangements being made for the comfort of the patients or their relations or for suitable provision for observance of caste customs.

*I agree with this. I think if material was collected in situ, it would be sufficient.*—P. H. B.

The need for improvement in the matter of conservancy and drainage of the City was again brought up. The Plague Commissioner said that Government would soon sanction funds and establishment for carrying out improvements in the City which in addition to being of help to keep out the plague will do lasting good to the City.

The Plague Commissioner also mentioned that in the matter of Inspection, 14 nurses, belonging to the different communities, were being trained for examining women.

Several of those present said that it would cause needless alarm if Government servants entered houses, administered medicines, and removed the patients.

Mr. Amir Ali explained at the instance of the Plague Commissioner that medicines would not be administered by force and that nurses and others would not remove patients. They would simply report to the higher authorities, and a person suspected to be suffering from the plague would be removed only under the orders of the higher authorities, such as the Plague Commissioner, Senior Surgeon, Civil Surgeon, or the Municipal President; what they (the meeting) were required to do was to put up caste sheds to which patients could be removed and where they could be attended to and every comfort and convenience provided. It was not as if patients were removed by force to strange hospitals and treated there against their will. The patient would be removed as it were, to another house of his own and there attended to by his own people and doctors. This had to be done in the interests of the City at large.

*This is what is intended.*—P. H. B.

Mr. Hakim Abdul Khasim Saheb said that the disease was not contagious as doctors and others who attended on patients did not catch it.

The Plague Commissioner replied that it might or might not be contagious; but it was known that if it appeared in one place and was neglected, it would spread all over the locality and slowly and surely the whole country would be infected and it would be very difficult to get rid of it. Segregation had been found to be effective in arresting its progress in its earliest stage and localising it and eventually in stamping it out and so segregation could not be dispensed with. What the authorities wanted the people to do was to co-operate with them in order to make segregation, so to speak, voluntary rather than compulsory and as little attended with discomfort as possible.

Those present agreed to the Plague Commissioner's suggestion that representatives of each caste should, after consultation with the people, meet the President and the Amildar on a date to be fixed and decide about the selection of sites for erecting sheds.

### FINANCIAL DEPARTMENT.

SPECIAL AUDIT DEPARTMENT.

*Circular No.* 1897—*Spl. Audit* 1685, *dated 29th March* 1898.

*To—The Deputy Commissioners, Treasury Department of Districts.*

It having come to notice that a certain Agricultural Bank calculated and paid interest on the amount advanced to it by Government at Re. 0-5-4 per cent per mensem and at the same rate for fractions of a month and that this mode of calculation brought in a less amount of interest than what was properly due, the Comptroller has the honor to observe that the Government Proceedings sanctioning such advances fix the interest not at Re. 0-5-4 per cent *per mensem*, but at 4 per cent *per annum*. The calculations should therefore be made as under :—

Interest for a complete month will be $\frac{1}{12}$ of the annual rate and that for any shorter period than a complete month will be the number of days $\div$ 365 $\times$ yearly rate of interest.

*Example 1.*—A loan bearing interest at 4 per cent per annum is granted to Bank A on the 20th July 1897. The calculation of interest for the odd days in July shall be as under :—

Twelve days, *i. e.*, from 20th to 31st July, divided by 365 $\times$ 4 per cent and from August to December $\frac{5}{12} \times 4$ per cent.

*Example 2.*—A loan bearing interest at 4 per cent per annum is granted to Bank B on the 14th February 1898. Interest for the odd days in February would be calculated as $\frac{15}{365} \times 4$ per cent and from March to June $\frac{4}{12} \times 4$ per cent.

*N. B.*—No tolls will be levied on foot passengers.

*Notification, dated 24th March 1898.*

The exclusive right of transporting passengers, goods, vehicles, animals, &c., and of collecting tolls at the ferries specified in the annexed list will be put up to auction on the dates specified therein by the Amildar or Sheristadar at each taluk head-quarters, subject to confirmation by the Deputy Commissioner.

2. The auction will begin at 12 noon on the days fixed, and will, if necessary, be continued on the following days.

3. The ferries will be leased out for twelve months from the 1st July 1898 to 30th June 1899, both days inclusive.

4. The monopoly covers only so much of the river as lies within 500 yards on each side of the ferry. The Deputy Commissioner forbids the transport, within these limits, of passengers, &c., as aforesaid, and the collection of tolls therefor, except by or on behalf of the lessee or other person authorized by the Deputy Commissioner.

5. The accepted bidder shall, immediately on the declaration of the acceptance of his bid, produce before the officer conducting the sales one-fourth of the accepted bid, failing which, the lease will be re-sold at the first purchaser's risk.

6. The accepted bidder shall, within four days of the acceptance of the bid, execute, in favor of the Deputy Commissioner, an agreement on a stamped paper with two tangible sureties for the due fulfilment of the contract, and deliver it to the Amildar or Sheristadar as the case may be, and thereupon the Deputy Commissioner will authorize the executant of the said muchalika to enter into his contract. If the accepted bidder fails to execute and deliver the muchalika, the lease will be re-sold or otherwise disposed of at the defaulting bidder's risk, the deposit already made being forfeited to Government.

7. Where there are no boats or "tokaras" they shall be provided by the lessees at all the ferries. The boats kept by the lessees shall always be of the size and quality approved by the Deputy Commissioner, Executive Engineer, or Amildar.

8. Wherever boats and platforms are provided by Government, they shall be returned to Government on the termination of the lease or on being demanded by the Deputy Commissioner or other officer authorized by him, on the same condition on which they were supplied to him, subject only to reasonable wear and tear. Loss or damage arising from neglect or want of care shall be made good by the lessee. The lessee shall always be bound to keep the ferries or boats in good order and clean.

9. The lessee shall be entitled to collect tolls at the rates specified in the list hereto annexed, and no fee or toll shall be demanded in the cases enumerated below :—

(*a*) Government mails, stores and remittances, and all persons, animals and vehicles employed in carrying the same.

(*b*) All Government officials, including troops travelling on duty, and also, in the case of police officers, prisoners and property in their custody.

(*c*) All parties employed by Government servants to carry official reports, when so carrying such reports.

(*d*) Children under 12 years of age.

(*e*) The Deputy Commissioner is, at any time and for any length of time, at liberty to attach the ferry boats for the conveyance of troops, camp equipage and followers, and the contractors and their servants will be bound to give all reasonable assistance to ensure their speedy and safe carriage.

10. The balance of the contract amount shall be paid by the lessee to Government in nine monthly instalments commencing from July 1898, the deposit being credited to the last three "khists". All payments shall be made in the treasury of the taluk in which the ferry lies.

11. At each ferry a board, showing the rates and the weight to be carried, should be put up in a conspicuous place by the lessee at all times when the ferry is worked, excepting those places where provision is made by the Deputy Commissioner.

12. The Deputy Commissioner reserves to himself the power of accepting or rejecting any bid without assigning any reasons therefor.

13. The contractor shall have a sufficient number of boats in readiness at either side of the ferry and shall take care that mails, travellers, passengers, animals, carriages, &c., are not unnecessarily delayed, whether by day or night, but are ferried over with expedition.

14. Every passenger crossing a ferry is allowed to carry with him his luggage not exceeding in weight an Indian maund without any additional fee for the same. Any quantity in excess of the above will be liable to an additional fee of one anna for each Indian maund or less.

15. Should the contractor be found to have acted contrary to any of the above rules, he shall, for every breach of such rules, be liable to a fine not exceeding Rs. 50, or as the Deputy Commissioner may deem fit.

The following papers are published for general information—

## Extracts from the Diary of the Assistant Commissioner in charge of Police, Tumkur district, for the week ending 19th March 1898.

I found that the plague leaflets were attached to chavadies and temples in the villages. Conversed with the patels as I passed on about the Plague Preventive Measures. I found that they had well understood the nature of the disease, its dangerous character and the instructions of the Government to prevent its spreading into our province. They were sympathetic towards the village sanitary reforms and found that an initiative had been taken in more than one village. From the attitude of the patels and other villagers with whom I conversed, I gathered that there could be no opposition in effectively carrying out the sanitary reforms and that the scheme would prove a success if only the Taluk officers evinced interest in the matter.

* * * * *

Met by appointment at Holarhalli about 20 patels whose registers I checked and enquired about the night watch and the state of crime in their villages. I took this opportunity to explain to them the nature of the plague, its dangerous characterestics and the measures necessary to cope with it successfully. They appeared to me to be willing to do anything demanded of them in order to prevent the plague from entering into the province.

In all the villages through which we passed and to the patels of others which we could not visit I spoke about night watch system and how it was to be kept, asked them to freely make use of the forms given regarding suspicious-looking strangers and told them their duty regarding plague patients and their companions as soon as the plague is discovered.

At Sarjapur, found that special attention had been enforced by the Amildar to the instructions received from the Plague Commissioner, regarding the removal of manure pits and the general sanitation of villages. It is gratifying to note that these instructions have resulted in the improved sanitation of villages throughout the district.

Inspected Attibele station, and went through the village. Found that, owing to the fact that the drain running through the principal street is covered over with stone slabs, there is an accumulation of sewage underneath which appears to have been never removed, and the stench from which is in consequence very bad. The Amildar's attention will be drawn to this.

The following Notice by the Mining Board, Kolar Gold Fields, is published for general information :—

*Immigrants to the Kolar Gold Fields, Mysore Province.*

"The Superintendents of the different mines have decided not to employ or allow to reside on their mines, people whether Europeans, Eurasians, or natives coming from plague infected areas and they have furthermore agreed that employes bringing relatives or others from such areas shall be instantly dismissed. This is published to save intending immigrants from plague districts the expense of the journey to the Kolar Gold Fields."

V. P. MADHAVA RAO,
*Plague Comr. in Mysore.*

Notes on a tour of Inspection made by Mr. V. P. Madhava Rao, Plague Commissioner in Mysore and Surgeon Lt. Col. P. H. Benson, Senior Surgeon and Sanitary Commissioner with the Government of Mysore, who left Bangalore on the 25th March 1898 travelled through Guntakal, Bellary, Hospet, Gadag and Dharwar and returned *via* Hubli and Harihar arriving at Bangalore on the afternoon of the 30th March 1898.

---

Friday, March 25th.
Saturday, 26th.

Leaving Bangalore at 8-30 P. M., Guntakal was reached at 6-30 A. M., the next day, where we found Surgeon-Major Hakim, District Medical and Sanitary Officer, Anantapur District, on the platform who informed us that he was in charge of the Plague preventive measures enforced at Guntakal where all passengers from an infected area are medically examined and such as are found to be sick or with suspicious symptoms are detained, for which purpose segregation sheds to accommodate some 12 persons had been erected.

We saw the examination of passengers from Bellary which was very similar to our own.

Surgeon Major Hakim explained that a large observation camp was being erected at a cost of some Rs. 20,000 on the bank of the Tungabhadra which forms the boundary between the Madras Presidency and the Nizam's Territory where plague is prevailing, consequently the preventive measures at Guntakal were confined to Medical inspection. The names of passengers proceeding from an infected area to places in the Madras Presidency with their place of destination are also noted, but this precaution is not extended to passengers travelling into Mysore. It may be noted here that Guntakal is the junction between the Southern Mahratta Railway and the Bangalore-Hindupur branch where passengers from Bombay change for Bangalore and Mysore and is therefore, as far as the Mysore Province is concerned, an important place. If the inspection of arrivals from infected areas is carefully carried out there is but little fear of plague being imported into Bangalore through this route as they are again inspected at Yesvantapur and those who are sick transferred to the observation shed whilst others are kept under medical observation for 10 days.

The Mysore Territory commences at Dodkurgode and the only danger to be apprehended is through a passenger alighting at one of the intermediate stations between the frontier station and Yesvantapur.

To minimize this danger the system which is in vogue on the Harihar-Bangalore branch should be adopted, *viz.* the Medical Inspection of all passengers at Dodkurgode, the detention there of all found to be sick or with suspicious symptoms and the placing of the rest under a police escort as in Harihar whose duty it would be to hand them over to the police at the station where they alight.

As there was nothing further to see we went on to Bellary by the 7-30 train arriving about 9-30 A. M. The Assistant Surgeon Mr. Chalke visited us at the Railway staff-quarters and explained to us the nature of Plague preventive measures adopted in that town (Bellary) which consisted of :—

A. Medical inspection of all passengers from Hospet and Guntakal side and detention of all found to be sick.

B. Those from infected areas were submitted to the process of fumigation by means of sulphur fumes—a system of disinfection admittedly practically useless.

In the evening we inspected the Civil Hospital in the compound of which is the segregation shed. It is a well built building about 70 feet in length and divided into four compartments to accommodate males and females, the cost of the building with kitchens, latrines, and sheds for the police being Rs. 500. We left Bellary by the 8-30 P. M. train for Dharwar and were examined at Hospet by Surgeon-Captain Pereira who is in charge of Plague preventive measures at that station. He has a certificated midwife to help him. The inspection was at midnight and passengers were not turned out of the train for the inspection. Hospet is the frontier town of Madras and is in danger of being infected by rail from the Bombay side and now that Plague is prevailing in the Nizam's Territory also by road. Surgeon-Captain Pereira told us that there was a segregation camp some mile or so away which is too far off to be of any real use. We were not impressed by the inspection at Hospet. We were again inspected at Gadag in the Dharwar District, but as it was 4 A. M., we did not see much of it. This is an important station as it is not far from Hubli where Plague is prevailing and it is also in direct rail communication with Hotgi and is consequently liable to be infected from two sides, *viz.*, Sholapur and Hubli. We were told by the Collector at Dharwar that the measures adopted at Gadag are very efficient; this being the case the Mysore Province is protected at this point.

Sunday, 27th.

We arrived at Dharwar at 9-30 A. M., and proceeded at once to the observation camp in company with Mr. Holland, the District Superintendent of Police. The camp is situated at a very convenient distance from the Railway Station on a rising ground. It consists of 12 huts each capable of accommodating 5 persons. The huts are built of bamboo mat walls with thatch roofing, the pitch of which is a good deal too flat and consequently they are very far from being water-tight. There were some thirty persons in the camp at the time of our visit. The arrangements for bathing, quarantine for 10 days, and disinfection were on the whole satisfactory. Dharwar, the head-quarters of the district situated between

Belgaum and Hubli at both of which places plague prevails, has not up to the present date had a single case. This may be attributed to—

1st. The very careful inspection of all passengers and detention of those who actually come from a plague infected area;

2ndly. To the supervision system which we were told is working admirably. In addition to the observation camp there is a plague camp on the other side of the railway. It is built on much the same plan as the observation camp with the exception that there are two hospital sheds. At the time of our visit there were no patients.

Leaving Dharwar we next proceeded to Hubli, a town of some 60,000 inhabitants, where plague first appeared in the railway chawls in October 1897, and where it was confined until January 1898, when the first case appeared in the town; from that date to this there have been only some 12 cases at different intervals, as much as 22 days having elapsed between two cases.

Monday, 28th.

On Monday morning we visited the Health Camp which is situated on either side of the Dharwar road about a mile from Hubli. It is composed of mat huts covered with thatch and is capable of accommodating about 800 persons though at the time of our visit there were not more than 50. The arrangements of the camp were very complete indeed, but it is questionable whether they will be habitable during the monsoon, a serious matter should Plague increase during that season. From there we went into the town and were shown those parts which had been evacuated on account of cases of plague having occurred in them. The roofs of the houses had been removed, many of the beams &c. burnt, the whole presenting a most dismal and depressing sight.

Surgeon-Major Collie showed us the different places where plague had occurred and it was impossible to draw any definite conclusion as to why cases should have appeared in those parts, seeing that they were in some instances widely separated. We next visited the plague camp which is situated on the outskirts of the town. The camp is a complete one providing as it does for those who are actually sick, those who are suspected of plague, and those who have been in contact with plague cases; and has also a convalescent or Quarantine camp. The hospital buildings consisted of two long sheds each capable of accommodating 20 patients. They are built of mud walls and tile roof, are light, airy and well ventilated. Dr. Collie showed us the Plague bacillus under the microscope and pointed out how very necessary it was that a bacteriological examination be made in all cases either of sickness or death. We also saw the death certificate book. Surgeon-Major Collie explained to us the importance of these certificates.

Tuesday, 29th.

In the evening we inspected the disinfection of the clothes and goods of passengers from infected areas. The former are tied up in a gunny bag and placed in a cylinder and there subjected to a pressure of steam at 25 lbs. In a short time the boiler is opened and the clothes which are quite dry are handed back to the owners. These operations are under the supervision of a Commissioned Officer and the total cost per mensem of this system is Rs. 1,500. On Tuesday morning we were shown the method of house supervision, the system which is proposed to be adopted in the City of Bangalore. The whole system is under the charge of Major Applin, assisted by Lieutenant Brown and seems to be working in a satisfactory manner.

We left Hubli Tuesday mid-day arriving Harihar the same afternoon. We inspected the camp that has been erected on the banks of the river which is capable of accommodating 500 people as it stands at present.

Instructions were given to the Amildar to make the roofs of all the buildings water-tight as far as possible, to complete the system of drains, to erect latrines, and huts for the disinfection of passengers, as also a semi-pucka building of two wards as hospital for male and female plague patients.

We decided that it was unnecessary to incur a larger outlay on the camp than was absolutely required until the question was definitely settled whether quarantine was to be established here or not. We witnessed the inspection of passengers by mail train from Hubli, which arrived at mid-night. The inspection though carried out at mid-night was very careful and systematic all passengers being compelled to alight from their carriages.

As far as we could judge, the Sub-Assistant Surgeon and those under him are doing their work in a very efficient manner. We examined the books and returns, &c.,; there are one or two small changes necessary in order to make the checking of them easier.

The number of passengers from the Bombay Presidency has lately increased from a little over 30 to nearly 60.

Wednesday, 30th.

The system started some time back of placing under police escort all passengers arriving at Harihar from an infected area is working very satisfactorily and it insures their alighting at the stations to which they are booked. We left Harihar by the mail train arriving in Bangalore on the evening of the 30th.

It remains now to be considered how far the measures described above can be considered to effectively protect Mysore. It is clear that passengers travelling by rail from the Nizam's Territory or from the Bombay Presidency into the Mysore Province have to pass along the chain of inspection stations formed by Tungabhadra, Gadag, Bellary and Guntakal stations at each of which medical inspection is insisted on and the detention of suspected persons more or less rigorously enforced according as the station is near or far from the area of infection. In addition to this, passengers bound for Bangalore or stations south of Bangalore are again carefully inspected at Yeswantpur and kept for ten days under medical observation after arrival at their place of destination, and if found suspicious are detained for medical observation at the Camp of detention near the Magadi road Chattram, Bangalore.

On this side then the province except as regards the stations lying between the frontier at Dodkurgode and Yeswantpur may be said to be most effectively guarded, and in order to make this protection complete so as to include the said intermediate stations all that is necessary is to introduce from Dodkurgode to Yeswantur a system of inspection and surveillance similar to that in force from Harihar to Yeswantpur which has been fully described above; the very early introduction of this measure seems to us of the utmost importance.

Next, on the other side, as regards passengers from all infected areas travelling through Hubli into the Mysore Province by rail, the rigorous preventive measures in force as described above at Londa, Dharwar, Gadag and Hubli may be said to absolutely protect us from all fear of plague from every place except Hubli itself. It remains therefore to consider how far the system in force at Harihar of medical inspection of all passengers, together with the detention of those reasonably suspected and coupled with the system of escorting all persons from an infected area from that place to their place of destination, is sufficient to protect Mysore against the spread of plague from Hubli. In order however to provide against any contingency, the Camp at Harihar, capable as it stands of housing 500 people, has been ordered to be put in thorough order and readiness, so that it can at any moment be used as a quarantine camp should the introduction of rigorous quarantine be rendered necessary.

When in addition to these measures the Supervision system now being introduced is brought into full working order in Bangalore and Mysore, the province may, as far as the *rail* is concerned, be considered to be as efficiently protected against the introduction of plague as is possible.

The last point for consideration is the possibility of the introduction of the plague *by road.*

Now taking into consideration that on the side of the Bombay Presidency plague is nowhere nearer than 80 miles or at least a four days' journey from our frontier, while on the side of the Nizam's Dominions it is nowhere nearer than 300 miles with a wide strip of Madras Presidency between it and our frontier, and considering that along the said strip of Madras Presidency rigorous preventive measures including the establishment of road inspection stations and the thorough patrol of the Madras Presidency frontier on the Nizam's Dominions' side are in force it will be seen that the likelihood of plague being introduced into our province by road is slight. In order however to reduce it to a minimum on the Dharwar-Shimoga frontier, police outposts have been stationed on the main roads and cart-tracks leading into the province; while at central positions along the frontier, inspection stations with detention sheds in charge of a Medical Officer have been established, the whole line of frontier being placed under the supervision of an Inspector specially deputed for this work.

Again on the Chitaldrug-Dharwar frontier the various fords of the Tungabhadra, which forms the boundary line between the two districts, are carefully guarded, police being stationed at each, and the whole being under the supervision of two Jamadars specially deputed for this work.

Finally on the Chitaldrug-Bellary side, separated though it is by the district of Bellary and Kurnool from the districts of the Nizam's Dominions at present infected, the Chitaldrug Deputy Commissioner and the Police Superintendent have proceeded on a tour of inspection with a view of ascertaining how far the preventive measures adopted in the Madras Presidency effectively guard us on that side from the spread of plague by road from the Nizam's Dominions; and on their return they will submit proposals for the establishment of such road inspection stations along their frontier as they may consider necessary to still further guard the Province.

# PAPERS IN CONNECTION WITH THE BUBONIC PLAGUE.

No. 1017 / C. 35

OFFICE OF THE PLAGUE COMMISSIONER IN MYSORE,
*Dated Bangalore, 22nd April 1898.*

Orders of the Plague Commissioner in Mysore on the arrangements necessary for the protection of the Chitaldrug-Bellary frontier passed on the Inspection Notes of the Superintendent of Police, Chitaldrug, and the remarks of the Deputy Commissioner of that District, dated 11th April 1898.

*Bellary Town.*

1. This is divided into two divisions under two Inspectors on Rs. 35+15, who each have under them a Hospital Assistant and an orderly.

2. Each division is again subdivided into four circles, each in charge of an Inspector on Rs. 15 with a peon and a toti under him. Every new comer from infected area is watched by these Inspectors for ten days after arrival, and suspicious persons are kept under observation in the Suspect Hospital erected for the purpose.

*Bellary Frontier.*

1. The river Tungabhadrá forms a natural boundary between Bellary and Dharwar on the west, and between Bellary and Hyderabad on the north.

2. The Bellary frontier from Harihar to Karnul (about 220 miles in length) is divided into 32 circles, each with an area of about 100 square miles, 5 to 10 miles in length and about 20 in depth.

3. Each circle is in charge of a Plague Inspector on Rs. 45+ 15+15 with a peon under him and over each group of four circles is a Plague Supervisor on Rs. 150+30+60.

4. It is the duty of these Inspectors and Supervisors to patrol their circles, inspecting the sanitary arrangements of the villages in them, and keeping a watch on all new comers into them seeing that those arriving from infected areas are provided with pass-ports and endeavouring to gain the earliest information of any case of plague imported over the frontier.

5. On each high road, a "Road Frontier Inspection Station" is established with :—

| | |
|---|---|
| 1 Hospital Assistant. | 1 Sweeper. |
| 2 Peons. | 1 Gumasta. |
| 1 Toti. | |

*Chitaldrug Frontier (Bellary side).*

1. Chitaldrug is separated from parts at present affected by plague by about 220 miles.

2. The frontier extends 150 miles from Kondajji on the west to Bommagondanakere, Molakalmuru taluk, on the east.

3. Four main roads enter the district from the Bellary District—

| | |
|---|---|
| (a) Bellary-Bangalore. | (c) Ujjani-Jagalur. |
| (b) Raidroog-Molakalmuru. | (d) Harpanahalli-Harihar. |

4. (a) Police Stations and Ukkads at intervals of 2 to 3 miles now serve as a protection to the Bellary-Molakalmuru road, the first station being Tammenhalli sub-station.

(b) The Police head station at Molakalmuru protects the Raidroog-Molakalmuru road.

(c) The Police sub-station at Gadimakunte on the frontier protects the Ujjani-Jagalur road.

(d) The Harihar head station protects the Harpanahalli-Harihar road.

*Additional Plague Preventive Measures necessary for Chitaldrug-Bellary frontier.*

(i) To strengthen each of the above Frontier Police Stations on the said four main roads, *viz*:—

| | |
|---|---|
| 1. Sub-station at Tammenhalli, | 3. Sub-station at Gadimakunte, and |
| 2. Head station at Molakalmuru, | 4. Head station at Harihar, |

by the addition of two literate 1st Class Police Constables as has been done in Shimoga. The extra establishment for this purpose may be entertained at once and the fact reported to the Inspector General of Police for formal sanction being obtained.

(ii) (a) The frontier from Harihar to Molakalmuru is reported to be protected by a line of sub-stations and out-posts specified in the margin. Some of these have been recently opened in accordance with the Police revision scheme lately sanctioned by Government for the effectual watch and patrol of the frontier. Two literate constables should be set apart solely for Plague duty at each of these sub-stations and out-posts from the existing staff, or where this is not possible, by withdrawing men from other stations.

| | Present strength. |
|---|---|
| 1. Kondajji sub-station, | 4 constables. |
| 2. Alur. | |
| 3. Anaji sub-station, | 5 constables. |
| 4. Bilchode, do | 5 do |
| 5. Siddayankote do | 5 do |
| 6. Gudimakunte do | 6 do |
| 7. Anabur ukkad do | 2 do |
| 8. Hiremallenhalli out-post | 4 do |
| 9. Mushtaganur. | |
| 10. Chikolanahalli. | |
| 11. Hangal sub-station, | 5 constables. |
| 12. Santebande do | 4 do |
| 13. Rampur do | 12 do |
| 14. Santegudda. | |
| 15. Tammenhalli sub-station, & ukkad, | 4 constables |
| 16. Molakalmuru head station. | |

(b) In places like Tammenhalli, which are sub-stations or out-posts and have also a ukkad, the services of the 'begars' at the ukkad may be utilized for duty in connection with plague. For other sub-stations and out-posts, one or two 'begars' may be employed for similar duties: the number and remuneration of such being reported for previous sanction.

(c) At each of the four Road Inspection Stations specified above, *viz.*, Tammenhalli, Molakalmuru, Gadimakunte and Harihar, and also at the sub-stations and out-posts on the frontier named in the preceding para, the Police should be supplied with (a) and (b) forms and instructed in their use. Their returns should be submitted daily to the Amildars of their respective taluks who will send a weekly abstract to the Police Superintendent; a monthly statement being submitted to this office by the Superintendent.

(d) The whole frontier should be placed under the charge of a 1st or 2nd Class Inspector with a horse allowance of Rs. 15 and special allowance of Rs. 20, whose duty would be to inspect the Frontier Inspection Stations to see that the Police there are watchful and working efficiently. He should also patrol the villages on the frontier checking at each village all new comers, finding out where they come from and noting any suspicious circumstances regarding their health.

(e) To help the Inspector, Patels on frontier taluks should keep a separate register to show all persons arriving at or passing through their villages. A copy of the entries in this register should be submitted weekly to the Amildar who should prepare therefrom a consolidated monthly return showing arrivals from infected areas into the District.

(iii) It is also necessary to establish at convenient places along the frontier as many Medical Inspection Stations where plague cases or suspicious cases can be treated or detained under observation as the Deputy Commissioner may consider necessary. Such Medical Inspection Stations should be at a convenient distance from the out-posts and sub-stations. A Hospital Assistant should be posted for duty at each, who should be supplied with a small stock of plague medicines and disinfectants. At each Medical Inspection Station a shed capable of holding five persons, size 9½ × 12, according to the plan herewith sent should be erected for use as a detention shed or, if necessary, as a Plague Hospital. Each shed should be built on a sightly raised basement and the roof of each should be given a slope of at least 45°.

(iv) The Amildar of each taluk in which a Medical Inspection Station is established should arrange for a staff comprised of—

| | |
|---|---|
| 1 Toti. | 1 Cook. |
| 1 Waterman. | 2 Peons. |

to be available for immediate employment at any Inspection Station at which a plague case may be reported.

2. The Deputy Commissioner is requested to select localities for Medical Inspection Stations and report them to the Plague Commissioner.

3. For immediate requirements, Tammenhalli should be constituted a Medical Inspection Station at once and placed in charge of a Hospital Assistant with one peon to help him. The staff may be increased up to the scale above indicated when there is necessity for it.

4. These arrangements will be sufficient to protect the frontier; but in the event of plague making its appearance in the Bellary District, additional precautions should be taken by dividing the frontier, as is now done in Bellary, into circles of about 100 square miles each to be placed under smart Inspectors and Jamadars. The Amildars become in that case the Plague Supervisors for superintending and checking the work of the Inspectors and Jamadars in charge of the circles in their respective taluks.

I am directed to intimate for the information of the Chief Commissioner that in view to facilitate the identification of passengers by rail from the plague infected areas in the Punjab, tickets with a special punch mark ¼ inch in diameter thus (o) are now being issued to passengers of all classes from all stations between Jullunder City and Ludhiana both inclusive, on the North-Western Railway.

Inspection Notes of Mr. V. P. Madhava Rao, Plague Commissioner in Mysore.
*Bowringpet*, 23*rd April* 1898

Leaving Bangalore by the 7-40 A. M. train, I arrived at Bowringpet Railway Station at about 9-40 and met Messrs. D. A. Ballard, Superintendent of Police, T. Chokkanna, Amildar, and A. Kodandapani Mudaliar, Inspecting Medical Officer, on the platform. The Inspecting Medical Officer showed us how the passengers were examined. They were all sent into the third class waiting room and were examined one by one at one outlet, the males by the Hospital Assistant and the females by the Midwife, as they passed out. The waiting room has two outlets, but

as the entrance near the booking office is thronged by in-going passengers there will be undesirable crush if the out-going passengers are also allowed to go out by the same passage. It is therefore proposed that the Railway authorities be requested to convert one of the windows into a third passage as pointed out to the Superintendent of Police and the Station Master, and allow male passengers to go out that way; the present passage being reserved for female passengers or such of them as desire privacy. The use of a *purdah* to screen the latter and their separate examination will render the inspection more agreeable to the people.

2. The Inspecting Medicial Officer brought to notice that the Police on platform duty were not sufficiently watchful and allowed some passengers to escape. The Station Master missed some tickets and has latterly adopted the system of collecting tickets in the carriages before the passengers get down. This places the Inspecting Officer at a disadvantage inasmuch as he has nothing but the statement of the passengers to guide him as to where they come from. The matter was discussed both with the Superintendent of Police and the Inspecting Medical Officer. The Superintendent said there was no difficulty in guarding the outlets so as to make clandestine departure impossible and wanted a small extra Police establishment. He was requested to apply for it through the Inspector General of Police. The three authorities concerned, *viz.*, the Station Master, the Inspecting Officer and the Superintendent of Police have agreed to revert to the system of collecting tickets and examining passengers at one and the same time as they issue out of the third class waiting room.

3. Next proceeded to the sheds erected for segregation and hospital purposes. These have been built on the Bombay plan furnished by Dr. O'Donnel, but on a smaller scale; and consist of bamboo mat walls with casuarina uprights and thatched roofs.

4. The segregation shed consists of 4 rooms, size 9½′ × 12′ each, with a 6 feet verandah in front. The sheds are built on raised basements with nice sandy tamped floors and little windows for each room and are the best I have seen. The walls, however, may be made more water-proof by having thicker mats ready to be attached to the walls when necessary and which, when not needed, could easily be removed and stored away. The little windows may also be provided with removable mat doors. The total cost of the sheds including a second shed of 4 rooms for use as a plague hospital and quarters for a Hospital Assistant, a nurse, two menial servants, sweepers, Police guard, mortuary, and latrine is Rs. 650.

5. Instructions were given to the Amildar to find a caste waterman and cook in Bowringpet who could be paid a sort of retaining fee not exceeding Rs. 2 a month and would be available for duty whenever wanted, each in such case to draw Rs. 7 per mensem.

6. The Inspecting Medical Officer represented that equipment for the camp such as beds, blankets, lanterns and medical stores, were urgently needed. He was asked to submit an indent on a small scale for articles absolutely needed for camp use and was informed that the Senior Surgeon would be requested to have the articles supplied at a very early date. The additional cholera sheds of corrugated iron put up close to the segregation camp would be useful for keeping these medical stores and appliances; and one of them could also be with advantage used as a disinfecting bath room.

7. After again inspecting the railway premises in the evening and the way in which passengers were examined, I returned by the evening train to Bangalore.

## FINANCIAL DEPARTMENT.

SPECIAL AUDIT DEPARTMENT.

*Circular No.* 1899—*Spl. Audit* 1820, *dated* 26*th April* 1898.

*To—The Deputy Commissioners of Districts, Treasury Department.*

It is observed that some of the vouchers received in support of repayments of Revenue Deposits are stamped with the "paid" stamp though the amounts shown in them were paid either wholly or partly by transfer, and that the heads of accounts to which the amounts have been transferred and the items in which they are included in the Treasury accounts are not noted clearly in the vouchers. Observes also that the General and Special Numbers and dates and months of some of the deposits are sometimes given wrongly in the Repayment Register, both Revenue and Judicial, and that much inconvenience is thereby felt by, and unnecessary delay caused in this office. The attention of the Deputy Commissioner, Treasury Department, is therefore drawn to Articles 311, Notes 1 to 4, and 354 of Civil Account Code, Vol. I, with a request that strict observance of these articles may be enforced and such mistakes, &c., guarded against in future.

1. The following District Fund budget estimates for 1898-99 were placed before the Board :—

(a) Consolidated District Fund budget estimates for 1898-99.
(b) Statement of assets upon which the local cess has been calculated for 1898-99.
(c) Detail of original works to be executed by Public Works Department.
(d) Do do by Revenue Department.
(e) Do of repairs to be executed by Public Works Department.
(f) Do do by Revenue Department.
(g) Detail of Civil charges.
(h) Statement of musafirkhanas and 3rd class travellers' bangalos.
(i) Talukwar statement of receipts and expenditure.

*Receipts.*—The local cess on Land Revenue with its sub-heads has been calculated on the jamabandi of 1896-97 and amounts to Rs. 74,054. Seventy-six per cent of the above creditable to District Funds, together with a sum of Rs. 2,700 which may be taken as the probable outstanding balance at the beginning of the year 1898-99, will amount to Rs. 58,309, which represents the estimated income from the cess collections. The estimate under "Sale of stray cattle," "Fines for cattle trespass" and "Fees from 3rd class travellers' bangalos, amounting, respectively, to Rs. 1,196, 2,178 and Rs. 70, is based upon the average realizations for the past three years; while the income of Rs. 580 from "Ferry collections" has been calculated upon the actuals for 1896-97, as the ferry at Tippur was abolished in that year owing to the completion of the Yedatore bridge.

The income from tolls has been estimated at Rs. 8,000, or more than double that of 1896-97, in view of the increase anticipated by the levy of toll on out-going traffic, as per Government Order No. 4169-75—L. F. 111-94, dated 8th October 1897.

The estimated income from the cess on the above item is put down at Rs. 500. Under "Sale of manure" a sum of Rs. 400 has been entered, as a considerable income from this source is expected at Santemaralhalli on account of the large weekly fair held at that village. The other items which are based upon the figures of the revised budget estimates for 1897-98 call for no special remarks.

3. The total estimated income under all heads comes to Rs. 74,113. The opening balance at the beginning of the year 1898-99 is estimated at Rs. 16,363 as shown below :—

| | | Rs. |
|---|---|---|
| 1. | Actual opening balance for 1897-98 .. .. . | 51,748 |
| 2. | Estimated receipts as per revised budget for 1897-98 .. .. | 73,713 |
| | Total .. | 1,25,461 |

*Expenditure.*

| | | Rs. | |
|---|---|---|---|
| 1. | By Public Works Department .. .. | 54,613 | |
| 2. | By Revenue Department .. . .. | 26,369 | |
| 3. | Civil charges . .. .. .. | 28,116 | |
| | | | 1,09,098 |
| | Balance .. | | 16,363 |

Thus the total estimated income for 1898-99, including the opening balance, will be Rs. 90,476, and the Board has passed the budget for this amount :—

4. *Expenditure.*—Out of the above sum of Rs. 90,476 it is proposed to spend Rs. 74,113 as shown below, leaving a balance of Rs. 16,363 for the year 1899-1900.

| | | Rs. |
|---|---|---|
| 1. | Public works by Public Works Department .. . | 39,201 |
| 2. | Public works by Revenue Department .. .. | 14,119 |
| 3. | Civil charges .. .. | 20,793 |
| | Total .. | 74,113 |

5. Statement of public works to be executed by Public Works Department :—

The estimate of expenditure furnished by the Executive Engineer was then placed before the Board. The provision therein made under the different heads is as follows :—

| | | Rs. |
|---|---|---|
| 1. | Original works .. .. .. .. | 7,960 |
| 2. | Repairs .. .. .. .. | 21,530 |
| 3. | Establishment .. .. .. .. | 5,161 |
| 4. | Tools and plant .. .. .. .. | 100 |
| 5. | Reserve grant .. .. .. .. | 4,450 |
| | Total .. | 39,201 |

The various items of expenditure proposed by the Executive Engineer were discussed and passed by the Board—

(1) The mileage allotments for the annual repairs of Hampapur-Ramanathpur road and Nanjangud-Hura road were raised from Rs. 50 and 30 to Rs. 75 and 50, respectively.

(2) The sum of Rs. 5,161 shown under establishment charges represents 17½ per cent of the amount provided for works.

(3) The provission of Rs. 4,450 under "Reserve grants" includes Rs. 670 on account of establishment charges for minor works, as per Government Order No. 895-904—L. F. 298-96, dated 19th July 1897.

6. Statement of Public Works to be executed by the Revenue Department—

The list of works to be carried out by the Revenue Department in 1898-99 was then read.

The Board observed that the funds at its disposal being very limited, the works proposed by the Amildars could not be undertaken, as they require a large outlay of Rs. 42,435. It was accordingly resolved to allot Rs. 9,205 for completing the five musafirkhanas at the marginally noted places, Rs. 2,000 for sanitary works and Rs. 1,814 for repairs. The items passed by the Board under this head of expenditure stand as follows:—

Chunchinkatte.
Saligram.
Bilikere.
Kowlandi.
T. Narsipur.

| | | Rs. |
|---|---|---|
| 1. | Original works including sanitary works .. .. | 11,205 |
| 2. | Repairs .. .. | 1,814 |
| 3. | Establishment charges .. .. | 1,000 |
| 4. | Tools and plant .. .. | 100 |
| | Total | 14,119 |

7. *Statement of Civil Charges*—The statement of civil charges, amounting to Rs. 20,793, was read and approved by the Board.

(1) The increase of Rs. 126 under "Office Establishment" is due to the additional provision required to meet the district and taluk contingent charges as sanctioned in Government Order No. 1319-28—L. F. 108-95, dated 23rd July 1897.

(2) The increase of Rs. 90 under "Medical Scholarships" is necessary to pay the increments sanctioned for native medical students in Government Order No. 15699-707—L. F. 344-96, dated 25th June 1897.

(3) An increase of Rs. 131 has been provided for under "Hospitals and Dispensaries" to meet the District Fund quota of the charges payable for the dispensaries at Periyapatam, Saligram and Bannur, recently sanctioned in Government Order No. 7855-7—L. F. 60-95, dated 14th January 1898.

(4) The necessity for payment of scholarships to midwifery pupils is likely to cease in 1898-99, and hence a decrease of Rs. 200 under the head "Midwives."

(5) The decrease of Rs. 2,000 under "Conservancy and Sanitary charges" is due to the provision for sanitary works having been shown under "B Public Works to be executed by Revenue Department," as per para 8 of Government Order No. 11486-90—L. F. 253-96, dated 22nd April 1897.

(6) The cost of Lanoline paste being no longer a charge on the District Funds, there is a decrease of Rs. 200 under "Vaccination."

(7) The sum of Rs. 100 under "Refunds" represents the allowance payable to Banesvara temple, Yedatore taluk, for 1898-99 and is half of what was entered in the current year's budget, which provided for the allowance due for two years.

(8) The decrease of Rs. 3,980 under "Contribution" is due to the absence of any provision on account of contribution for the construction of Local Fund dispensaries.

(9) No provision for the purchase and feed of Amrut Mahal bulls was considered necessary, and hence the decrease of Rs 405 under this head.

(10) The decrease of Rs. 500 under "Cattle pounds" is due to the demand for such pounds being comparatively less.

(11) The decrease of Rs. 105 under "Commission to pound-keepers" is due to a corresponding decrease in the estimated income from pounds.

(12) The decrease of Rs. 180 under the remaining minor heads calls for no special remarks.

8. *Summary.*—The following is a summary of estimated receipts and expenditure for 1898-99 as passed by the Board:—

| | | Rs. |
|---|---|---|
| 1. | Opening balance for 1898-99 .. .. .. .. | 16,363 |

F. 377-92 of the 22nd February 1893, none was received.

Mr. P. Subbarayalu Naidu, Amildar of Holé-Narsipur.

*Non-Official Members.*

Mr. Kalasapur Thammaiya, coffee planter, Belur.
Mr. Mohamed Gouse Sab, coffee planter, Saklespur.

*Note.*—The Deputy Amildar of Alur was also present.

I. Read statement showing receipts and disbursements under District Funds from July to the end of September 1897.

*Resolution.*—Passed and recorded.

II. Read petition from Nallulli Nirvanigauda, dated 8th January 1898, stating that a musafir-khana or chattram at Sukravarsante constructed by him at a cost of about Rs. 2,000 may be taken over and maintained by Government subject to his supervision.

*Resolved* that the plan and an estimate of the cost of building be obtained and Nirvanigauda asked whether he is prepared to make over the building unconditionally to Government having the same called after his name.

III. Read Senior Surgeon's docket No. 1610, dated 17th November last, forwarding petition from certain inhabitants of Yeslur praying that a widwife may be appointed for Yeslur.

*Resolved* that as the midwives at Saklespur and Arkalgud could conveniently take up the duties, the appointment of a separate midwife for Yeslur may for the present be postponed.

IV. Read Holé-Narsipur Amildar's report No. 96, dated 20th instant, bringing to notice the necessity for raising the pay of the sweeper attached to the 3rd class travellers' bangalo at Holé-Narsipur.

*Resolved* that the recommendation of the Amildar to increase the pay of the sweeper at Holé-Narsipur from Rs. 5 to Rs. 6 be sanctioned. Further that in the case of all 3rd class bangalos where only one is employed both as sweeper and care-taker on Rs. 5, his pay be increased to Rs. 6.

V. The usual budget estimates for 1898-99 were placed before the Board and explained as follows :—

RECEIPTS.

(a) *Seventy-six per cent of local cess creditable to the District Funds.*—The estimate under this head is based upon the jamabandi figures of 1896-97.

(b) The estimate under the head "Private contributions" represents the contributions expected towards the cost of well and other works.

(c) *Adjustment of advances made on account of impounded cattle.*—As a sum of Rs. 1,500 is expected to be adjusted during 1898-99, this amount has been shown under this head.

(d) The estimates under the remaining heads which are of a fluctuating character are based upon the actuals of 1896-97.

(e) As in all probability a sum of not more than Rs. 1,20,934 is expected to be spent, even though the supplemental budget submitted with this office No. 681, dated 7th January 1898, is sanctioned, the opening balance for 1898-99 is estimated at Rs. 46,689 taking into account the actual balance on 1st July 1897 intimated by the Comptroller (*i.e.*, Rs. 91,308). Thus the total income including the opening balance for 1898-99 is Rs. 1,22,184.

*Resolution.*—The estimates be passed.

VI. *Expenditure.*—The budget estimates of Public Works received from the Executive Engineer were then read to the Board.

(a) *Original works.*—Out of the seven works entered in the statement, five are those in progress and the rest have already been approved by the Board.

The total estimate under this head is Rs. 27,000 including Rs. 3,000 under "Reserve."

*Resolved* that as funds are not available the provision under "Reserve" be reduced to Rs. 1,500 and that the remaining estimates be passed.

(b) *Repairs.*—As per statement received from the Executive Engineer the provision under this head is Rs. 40,000 enhanced mileage allotments have been entered by the Executive Engineer for Dudda-Arsikere and Hassan-Tiptur roads owing to heavy traffic on them agreeably to Board's Resolutions Nos. 5 and 13, dated 15th April 1896 and 26th June 1897 respectively.

*Resolved* that for want of sufficiency of funds, the provision under "Reserve" be reduced from Rs. 5,919 to Rs. 3,919 and that the total estimate for Rs. 38,000 be passed. Further that the provision under "Establishment and tools and plant" be also curtailed proportionately to the sums under "Original works and repairs."

VII. PUBLIC WORKS TO BE EXECUTED BY THE REVENUE DEPARTMENT.

(a) *Original works.*—The President informed the Board as only a sum of Rs. 500 is expected to be spent on each of the marginally noted musafirkhanas for which there is provision in the current year's budget, provision has been made in the next year's budget for completing the same and that a sum of Rs. 500 has been entered under "Reserve for minor works."

Musafirkhana at Lakkunda.
Do at Kenchammana-Hoskote.
Do at Javagal.

Mr. J. G. H. Crawford said that there was no necessity for a musafirkhana at Lakkunda and that it might be omitted from the list.

Mr. Paramasiva Iyer, General Assistant Commissioner, proposed that the construction of a musafirkhana at Chikmallenahalli midway between Holé-Narsipur and Hassan on the Yelwal-Hassan road was very desirable.

*Resolved* that a musafirkhana at Chikmallenahalli be constructed instead of the one at Lakkunda and that a sum of Rs. 1,500 be provided therefor. The provision made for the remaining works is passed.

(b) *Repairs*—For want of funds a sum of Rs. 4,000 has been provided under this head against Rs. 5,500 in the current year's budget.

*Resolution.*—Passed.

(c) The provision under "Establishment and tools and plant" was also accepted by the Board.

VIII. The statement of Civil charges was placed before the Board and explained as follows :—

(1) *Office Establishment.*—A sum of Rs. 105 has been provided for contingencies of the District and Taluk offices in accordance with Government Proceedings No. 1319-28—L. F. 108-95, dated 23rd July 1897.

(2) *Medical Scholarships.*—A sum of Rs. 784 has been provided under this head against Rs. 310 in the current year's budget as per Proceedings of Government since received. The provision under this head includes also the scholarships to be given to two men proposed to be sent from March next for training in the Indigenous Hospital at Mysore. *Vide* Government Proceedings No. 3901-3—L. F. 944-76, dated 24th September 1897.

(3) *Hospital and Dispensaries.*—As no intimation has since been received from the Senior Surgeon as to the pay of compounders, last year's figures have been repeated. Provision has been made for the pay of the waterman attached to the dispensary at Belur at Rs. 3 per mensem instead of Rs. 2 as provided in the current year's budget. *Vide* Government Proceedings No. 1134-6—L. F. 227-93, dated 7th February 1896. Hence there is an increase of Rs. 8 over the provision of the current year.

(4) *Sweepers for 3rd class Travellers' Bangalos and Musafirkhanas.*—The pay of the sweeper of the bangalo at Holé-Narsipur has been raised from Rs. 5 to 6. *Vide* Resolution IV *supra.*

Provision has been made for the pay of the sweepers attached to the lodges at Halebid and Sukravarsante as the Board have resolved to recognise these buildings as 3rd class travellers' bangalos.

(5) As vessels are not yet supplied to the musafirkhanas at Channarayapatna, Holé-Narsipur, Hettur and Dudda, a sum of Rs. 140 has been entered for supplying the same.

(6) *Conservancy and Sanitary Charges*—Owing to insufficiency of funds, only a sum of Rs. 3,000 has been provided for sanitation of rural parts against Rs. 4,000 in the current year's budget.

As the Amildars say that one sweeper sanctioned for each of the marginally noted places is not sufficient, provision has been made for two sweepers for each of those places.

Yeslur.
Ramanathpur.
Rudrapatna.
Baswapatna.
Kerlapur.

Provision has also been made for a sweeper on Rs. 5 for Gorur as per proposal of the Amildar,

(7) *Miscellaneous.*—Under the head "Advances" to be paid to pound-keepers on account of feeding cattle" a sum of Rs. 1,500 has been entered agreeably to the provision made under "Receipts" for adjusting the same. The other items are all usual ones.

*Resolution.*—Passed.

IX. The President informed the Board that the closing balance falls short of 25 per cent of the estimated receipts, but a saving of more than Rs. 10,000 is expected at the close of the year in the budget grant.

X. As there are several villages in the district where the introduction of a municipality is not practicable owing to the unwillingness of some of the inhabitants, it is proposed that the Board provide such places with additional sweepers according to the requirements of each and that as this will involve considerable additional expenditure which the present condition of the funds is not able to meet, it is proposed that Government may be moved to grant half the mohatarfa of such villages where more than one sweeper is employed to meet the additional proposed expenditure.

B. G. KRISHNAIENGAR, *President.*

## PAPERS IN CONNECTION WITH THE BUBONIC PLAGUE.

### Extracts from the Diary of the Assistant Superintendent of Police, Kadur district, for the week ending 23rd April 1898.

The clearing of the "lantana" at Santaveri and the removal of the manure heaps from the proximity of the travellers' bangalo, these have improved the sanitation of the village considerably. Both at Lingadahalli and in Dornahall, the village sanitation has received the earnest attention of the Police and the Revenue authorities and heaps of cattle refuse that were visible everywhere in these villages have been carted away into the fields.

*Deputy Commissioner's remarks.*

Yes, but there still is great room for improvement. Santaveri is one of the dirtiest villages in the district.

"Ind" F. C.

Inspected the town in the morning in company with the Amildar. Saw the several streets in the town and was satisfied with the improvements made in many respects. The conservancy arrangements are working satisfactorily. The drains have been cleared and the tank from which the town draws its drinking water-supply is well guarded.

*Deputy Commissioner's remarks.*

The town seems very fairly clean. The filling in of the fort ditch and levelling off of the market place will greatly improve the sanitation of the town.

"Ind" F. C.

* * * * * *

Visited Germardi and Bettadahalli outposts and the villages of Bettadahalli, Kornahalli and Chettnahalli. Found that in the two last mentioned villages, the instructions of the Plague Commissioner in the matter of improving the village sanitation have been carefully attended to. In Bettadahalli, the village itself was very clean, but owing to difficulties of conveying the manure heaps from the village site into the fields across the deep cutting of the railway line, the manure pits were left as they were. The complaint of the villagers was well founded and I therefore ordered the patel and the villagers to cover the manure pits over with fresh earth till they can find easy means of removing the manure to the fields. The villagers set to work in my presence and before to-morrow evening they hope to carry out the instructions.

### Extract from the Diary of the Assistant Superintendent of Police, Hassan district, for the week ending 23rd April 1898.

I visited 25 villages of Arkalgud and Holé-Narsipur taluks and found much improvement regarding sanitation, *viz.*, removing manure from old pits to distant fields and keeping those pits clean and keeping the lanes, streets and surroundings of houses clean, whitewashing and plastering with mud to the walls of houses and taking care of water used for domestic purposes by prohibiting its pollution. Further I observed that the villagers are now in the habit of removing daily manure from their houses to distant fields instead of securing it in old pits situated close by their houses.

## EXCISE DEPARTMENT.

*Notice No.* 7532—17, *dated the 3rd May* 1898.

SALE OF COUNTRY BEER TAVERNS IN THE CITY OF BANGALORE FOR 1898-99.

1. Notice is hereby given that the exclusive privilege of selling Country Beer or Porter in each of the three taverns at the Bangalore City specified in the appended schedule, for the twelve months beginning with 1st July 1898 and ending with 30th June 1899, will be put up to public auction on the 18th May 1898 in the Bangalore Taluk Cutcherry, by the Deputy Commissioner, Bangalore district, or other officer authorized by him.

2. Each bidder at the auction will deposit a sum of Rs. 50 or such other reasonable amount as may be fixed by the officer conducting the sale, previous to bidding. Each tavern will be knocked down to the approved highest bidder, subject to the formal confirmation by the Deputy Commissioner, who will be at liberty to accept or reject the bid at discretion without assigning reasons for the same. Such formal confirmation will, unless revised by Government, be tantamount to an acceptance of the bid. Parties intending to bid must attend either in person or by duly accredited agents.

3. As soon as the auction is completed, the deposits made by the unsuccessful bidders and not forfeited as hereinafter provided, will be returned to them. As the auction proceeds, the person whose bid is accepted for each tavern shall at once deposit a sum equal to $\frac{5}{8}$ths of a month's rent for that tavern. Should he fail to do so, the deposit made by him under para 2 will be forfeited, the tavern will at once be put up again on the above conditions, and he will be debarred from bidding again for the same or for any other tavern.

4. The persons to whom the taverns have been knocked down, and who have made deposits as provided in paras 2 and 3, shall also, within seven days from the date of the auction, deposit such further sum as, with the first and second deposits, will make up an amount equal to two months' rent of each tavern knocked down to them ; and shall take out licenses and execute a counterpart engagement, in the appended form, on the conditions hereinafter set forth. On the failure of any person to make the deposit or to take out license or to execute the counterpart engagement, as aforesaid, the tavern will be re-sold at the risk of such person, or if the auction hereby notified has already been completed, will be otherwise disposed of at the discretion of the Deputy Commissioner. In the case of the purchaser's death after the confirmation of the sale, it will be binding on his heirs or assigns.

5. Re-sales effected under para 4 will be at the risk of the defaulting bidder who will forfeit all gain ; and in the event of a loss by re-sale, he will make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale. In the latter case, the forfeited deposit will be deducted from the loss arising from the re-sale and the remainder, if any, will be recovered from the bidder in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposit be greater than the loss by re-sale, the whole of such deposit will be credited to Government.

6. The license to be taken out under para 4 above shall be subject to the following conditions, namely :—

(1) The privilege conferred by the license extends to the sale of Country Beer or Porter brewed by Messrs. Leishman & Co., Nilgiris, or by Messrs. Meakin & Co., Kirkee, or in any other Brewery approved by the Excise Commissioner.

(2) Each tavern shall be maintained in or close to the existing tavern as described in the Schedule.

(3) The amount for which the privilege has been purchased shall be payable into the Bangalore Taluk Treasury in equal monthly instalments commencing from July 1897 ; each instalment shall be regarded as the rent for the month in respect of which it is payable. Each month's rent shall be payable on or before the 20th of the same month of the chellan prescribed for the purpose. The deposit of two months' rent made by the licensee will be taken in payment of the rents due for the last two months of the period of the lease. Failing payment by the 20th of the same month, the Deputy Commissioner shall at once proceed to recover the arrears together with interest at 6 per cent under the rules in force for the collection of land revenue. No remission or abatement of the rent shall, on any account whatever, be claimable by the licensee.

(4) The licensee shall further pay a duty of two annas for every gallon of County Beer or Porter purchased by him.

*Notice No.* 7533—18, *dated the* 3*rd May* 1898.

SALE OF DRUG SHOPS FOR 1898-99

Notice is hereby given that the exclusive privilege of selling intoxicating Drugs in each of the shops specified in the Schedule hereto appended, for the twelve months beginning with 1st July 1898 and ending with 30th June 1899, will be put up to public auction at the head-quarters of taluks on the dates specified in the said Schedule, by the Amildars of the respective taluks.

2. Each bidder at the auction will deposit a sum of Rs. 50 or such other reasonable amount as may be fixed by the officer conducting the sale, previous to bidding. Each shop will be knocked down to the approved highest bidder, subject to the formal confirmation by the Deputy Commissioner, who will be at liberty to accept or reject the bid at discretion without assigning reasons for the same. Such formal confirmation will, unless revised by Government, be tantamount to an acceptance of the bid. Parties intending to bid must attend either in person or by duly accredited agents.

3. As soon as the auction is completed, the deposits made by the unsuccessful bidders and not forfeited as hereinafter provided, will be returned to them. As the auction proceeds, the person whose bid is accepted for each shop shall at once deposit a sum equal to $\frac{5}{8}$ths of a month's rent for that shop. Should he fail to do so, the deposit made by him under para 2 will be forfeited, the shop will at once be put up again on the above conditions, and he will be debarred from bidding again for the same or for any other shop.

4. The persons to whom the shops have been knocked down, and who have made deposits as provided in paras 2 and 3, shall also, within seven days from the date of the auction, deposit such further sum as, with the first and second deposits, will make up an amount equal to two months' rent of each shop knocked down to them; and shall take out licenses and execute a counterpart engagement, in the prescribed forms, on the conditions hereinafter set forth. On the failure of any person to make the deposit or to take out license or to execute the counterpart engagement, as aforesaid, the shop will be re-sold at the risk of such person, or if the auction hereby notified has already been completed, will be otherwise disposed of at the discretion of the Deputy Commissioner. In the case of the purchaser's death after the confirmation of the sale, it will be binding on his heirs or assigns.

5. Re-sales effected under para 4 will be at the risk of the defaulting bidder who will forfeit all gain; and in the event of a loss by re-sale, he will make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale. In the latter case, the forfeited deposit will be deducted from the loss arising from the re-sale and the remainder, if any, will be recovered from the bidder in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposit be greater than the loss by re-sale, the whole of such deposit will be credited to Government.

6. The license to be taken out under para 4 above shall be subject to the following conditions, namely:—

(1) The amount for which the privilege has been purchased shall be payable into the Taluk Treasury in equal monthly instalments commencing from July 1898; each instalment shall be regarded as the rent for the month in respect of which it is payable. Each month's rent shall be payable on or before the 20th of the same month on the chellan prescribed for the purpose. If such amount be less than rupees 12, it shall be paid up in not more than three instalments. The deposit of two months' rent made by the licensee will be taken in payment of the rents due for the last two months of the period of the license. Failing payment by the 20th of the same month, the Deputy Commissioner shall at once proceed to recover the arrears together with interest at 6 per cent under the rules in force for the collection of land revenue. No remission or abatement of the rent shall, on any account whatever, be claimable by the licensee.

(2) The licensee shall use such scales and weights as may from time to time be prescribed by Government, and provide himself with the printed forms of accounts and permits or passes for transport of Drugs, which forms shall be purchased from local Excise Officers.

(3) The licensee shall be bound to take over any Drugs which may remain as stock in hand belonging to the out-going licensee on the 1st July 1898 in the existing shop, paying to the latter such compensation for the same as may be fixed by the Deputy Commissioner.

(4) The licensee shall be bound by the rules in force, and which may be issued from time to time by Government.

(5) The remaining terms and conditions shall be as set forth in the prescribed license.

7. In the case of any breach of the above conditions either by the licensee, or with his connivance and privity, by any person in his employment, or in the event of the licensee neglecting to open his shop or to carry on his business with due care and attention, it shall be competent to the Deputy Commissioner to impose upon the licensee a fine not exceeding Rs. 10 for every such breach or neglect, or at the option of the Deputy Commissioner to declare the money deposited with him forfeited, and to cancel the license and to re-sell or to otherwise dispose of the privilege at the risk of the licensee; and all loss thereby caused, together with the loss accruing to Government in consequence of the licensee not carrying on his business by opening his shop on 1st July 1898, shall be made good by him. When a license is cancelled, the rent for the whole period of the license shall become due at once, which shall be recovered together with all losses as if they were arrears of land revenue.

8. The penalties laid down in the last preceding clause shall not exempt the licensee or his employés from prosecution for any offence committed against the Excise laws or rules in force.

2. Mr. D. Subba Rao, Amildar of Nagamangala.

*Non-Official Members.*

1. Mr. Mallappa of Malvalli.
2. " Garudachar of Nagamangala

This meeting was convened to discuss the budget estimates of Receipts and Expenditure for the year 1898-99.

2. *Receipts.*—The receipts are estimated at Rs. 43,540 and are based on the actuals for the year 1896-97 which were Rs. 43,462-4-7. They exceed the sanctioned estimated receipts for 1897-98 by Rs. 795. The probable opening balance at the beginning of the year is estimated at Rs. 7,504. This together with the estimated receipts makes the total assets Rs. 51,044 for the year 1898-99.

3. *Expenditure.*—The statement of works proposed to be undertaken by the Public Works Department was read and considered.

4. *Original works. Communications.*—Under this head seven works were proposed by the Executive Engineer with a grant of Rs. 10,800 for expenditure during the year 1898-99. The Board, considering the paucity of funds at their disposal, could only make provision for two works, *viz.*, (1) the musafirkhana at French Rocks Rs. 1,500 and (2) construction of rough stone tunnels on the Krishnarajpete-Melkote road Rs. 800. The construction of the musafirkhana at French Rocks is making good progress and provision having to be made for its early completion, the Board passed the grant applied for by the Executive Engineer. The other work passed by the Board is one of great public utility. The road from Krishnarajpete to Melkote being unbridged is all but impassable during the rains.

5. *Repairs.*—A sum of Rs. 23,780 is provided under this head, being the usual maintenance charges of 21 roads. The Executive Engineer applied for an increase of Rs. 20 to the mileage allotment of the Seringapatam-Sosale-Sivasamudram road, and also for a grant of Rs. 3,000 for the special repairs of the French Rocks Station-Nelligere road. But the Board could not sanction these increases for want of funds.

6. The amount allotted to Public Works Department for works comes to Rs. 26,080. To this must be added the establishment charges of Rs. 4,564 at 17½ per cent, which will make the total grant Rs. 30,644.

7. In connection with the annual maintenance of roads, the President brought to the notice of the Board that more than one half of the receipts was absorbed in payment of charges for the annual maintenance of roads, leaving scarcely enough money to be spent on useful and important public works, and suggested that Government be moved to grant some relief to the Board in this respect.

*Resolved* that Government be requested to take the matter into their earnest consideration and relieve the Local Fund Board of the charges for the Seringapatam-Channarayapatna road and the French Rocks Station-Nelligere road, *viz.*, Rs. 5,550 and Rs. 4,375, respectively, by transferring them to the Provincial Funds, the amount thereby saved to be utilized for important original works which the Board is unable to sanction in its present financial condition.

8. *Public works to be executed by Revenue Officers.*—Original works. Rs. 1,000 have been provided under this head and this sum will be distributed among the five taluks according to their wants.

9. *Repairs.*—Rs. 340 are provided under this head for the maintenance of roads in charge of the Revenue Department.

10. *Establishment.*—Rs. 334 have been provided under this head, being the establishment charges at 10 per cent on Rs. 1,000 provided under "Conservancy and sanitation" and on Rs. 1,000 provided for the "Construction and repairs of cattle-pounds" under the "Civil charges" as well as public works under "Revenue agency."

11. *Civil Charges.—I Office Establishment.*—There is a decrease of Rs. 10 under "3 Furniture."

12. *VII Vaccination.*—Under this head there is a decrease of Rs. 286. This amount had been provided to meet the arrears of pay due to an extra vaccinator of Seringapatam. No such provision is required for the year 1898-99.

## EXCISE DEPARTMENT.

*Notice No.* 7532—17, *dated the* 3*rd May* 1898.

SALE OF COUNTRY BEER TAVERNS IN THE CITY OF BANGALORE FOR 1898-99.

1. Notice is hereby given that the exclusive privilege of selling Country Beer or Porter in each of the three taverns at the Bangalore City specified in the appended schedule, for the twelve months beginning with 1st July 1898 and ending with 30th June 1899, will be put up to public auction on the 18th May 1898 in the Bangalore Taluk Cutcherry, by the Deputy Commissioner, Bangalore district, or other officer authorized by him.

2. Each bidder at the auction will deposit a sum of Rs. 50 or such other reasonable amount as may be fixed by the officer conducting the sale, previous to bidding. Each tavern will be knocked down to the approved highest bidder, subject to the formal confirmation by the Deputy Commissioner, who will be at liberty to accept or reject the bid at discretion without assigning reasons for the same. Such formal confirmation will, unless revised by Government, be tantamount to an acceptance of the bid. Parties intending to bid must attend either in person or by duly accredited agents.

3. As soon as the auction is completed, the deposits made by the unsuccessful bidders and not forfeited as hereinafter provided, will be returned to them. As the auction proceeds, the person whose bid is accepted for each tavern shall at once deposit a sum equal to 3ths of a month's rent for that tavern. Should he fail to do so, the deposit made by him under para 2 will be forfeited, the tavern will at once be put up again on the above conditions, and he will be debarred from bidding again for the same or for any other tavern.

4. The persons to whom the taverns have been knocked down, and who have made deposits as provided in paras 2 and 3, shall also, within seven days from the date of the auction, deposit such further sum as, with the first and second deposits, will make up an amount equal to two months' rent of each tavern knocked down to them ; and shall take out licenses and execute a counterpart engagement, in the appended form, on the conditions hereinafter set forth. On the failure of any person to make the deposit or to take out license or to execute the counterpart engagement, as aforesaid, the tavern will be re-sold at the risk of such person, or if the auction hereby notified has already been completed, will be otherwise disposed of at the discretion of the Deputy Commissioner. In the case of the purchaser's death after the confirmation of the sale, it will be binding on his heirs or assigns.

5. Re-sales effected under para 4 will be at the risk of the defaulting bidder who will forfeit all gain ; and in the event of a loss by re-sale, he will make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale. In the latter case, the forfeited deposit will be deducted from the loss arising from the re-sale and the remainder, if any, will be recovered from the bidder in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposit be greater than the loss by re-sale, the whole of such deposit will be credited to Government.

6. The license to be taken out under para 4 above shall be subject to the following conditions, namely :—

(1) The privilege conferred by the license extends to the sale of Country Beer or Porter brewed by Messrs. Leishman & Co., Nilgiris, or by Messrs. Meakin & Co., Kirkee, or in any other Brewery approved by the Excise Commissioner.

(2) Each tavern shall be maintained in or close to the existing tavern as described in the Schedule.

(3) The amount for which the privilege has been purchased shall be payable into the Bangalore Taluk Treasury in equal monthly instalments commencing from July 1897 ; each instalment shall be regarded as the rent for the month in respect of which it is payable. Each month's rent shall be payable on or before the 20th of the same month of the challan prescribed for the purpose. The deposit of two months' rent made by the licensee will be taken in payment of the rents due for the last two months of the period of the lease. Failing payment by the 20th of the same month, the Deputy Commissioner shall at once proceed to recover the arrears together with interest at 6 per cent under the rules in force for the collection of land revenue. No remission or abatement of the rent shall, on any account whatever, be claimable by the licensee.

(4) The licensee shall further pay a duty of two annas for every gallon of County Beer or Porter purchased by him.

(5) The consignment of Country Beer or Porter purcased by the licensee shall be sent direct from the Brewery to the Amildar, Bangalore tluk. The letter of advice covering the consignment, shall be in duplicate, the origina being sent to the Amildar of the Bangalore taluk, and the duplicate to the Excise Comissioner. *Notice No.* 7533—18, *dated the* 3rd *May* 1898.

SALE OF DRUG SHOPS FOR 1898-99.

Notice is hereby given that the exclusive privilege of selling intoxicating Drugs in each of the shops specified in the Schedule hereto appended, for the twelve months beginning with 1st July 1898 and ending with 30th June 1899, will be put up to public auction at the head-quarters of taluks on the dates specified in the said Schedule, by the Amildars of the respective taluks.

2. Each bidder at the auction will deposit a sum of Rs. 5 or such other reasonable amount as may be fixed by the officer conducting the sale, previous to bidding. Each shop will be knocked down to the approved highest bidder, subject to the formal confirmation by the Deputy Commissioner, who will be at liberty to accept or reject the bid at discretion without assigning reasons for the same. Such formal confirmation will, unless revised by Government, be tantamount to an acceptance of the bid. Parties intending to bid must attend either in person or by duly accredited agents.

3. As soon as the auction is completed, the deposits made by the unsuccessful bidders and not forfeited as hereinafter provided, will be returned to them. As the auction proceeds, the person whose bid is accepted for each shop shall at once deposit a sum equal to $\frac{5}{8}$ths of a month's rent for that shop. Should he fail to do so, the deposit made by him under para 2 will be forfeited, the shop will at once be put up again on the above conditions, and he will be debarred from bidding again for the same or for any other shop.

4. The persons to whom the shops have been knocked down, and who have made deposits as provided in paras 2 and 3, shall also, within seven days from the date of the auction, deposit such further sum as, with the first and second deposits, will make up an amount equal to two months' rent of each shop knocked down to them; and shall take out licenses and execute a counterpart engagement, in the prescribed forms, on the conditions hereinafter set forth. On the failure of any person to make the deposit or to take out license or to execute the counterpart engagement, as aforesaid, the shop will be re-sold at the risk of such person, or if the auction hereby notified has already been completed, will be otherwise disposed of at the discretion of the Deputy Commissioner. In the case of the purchaser's death after the confirmation of the sale, it will be binding on his heirs or assigns.

5. Re-sales effected under para 4 will be at the risk of the defaulting bidder who will forfeit all gain; and in the event of a loss by re-sale, he will make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale. In the latter case, the forfeited deposit will be deducted from the loss arising from the re-sale and the remainder, if any, will be recovered from the bidder in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposit be greater than the loss by re-sale, the whole of such deposit will be credited to Government.

6. The license to be taken out under para 4 above shall be subject to the following conditions, namely:—

(1) The amount for which the privilege has been purchased shall be payable into the Taluk Treasury in equal monthly instalments commencing from July 1898; each instalment shall be regarded as the rent for the month in respect of which it is payable. If such amount be less than rupees 12, it shall be paid up in not more than three instalments. Failing payment by the 20th of the same month, the Deputy Commissioner shall at once proceed to recover the arrears together with interest at 6 per cent under the rules in force for the collection of land revenue. Continuation my telegram No. 1114—25, dated 4th instant, plague Calcutta, seizures 5, deaths 5, between 4th and 9th May.

Extract from the Diary of the Superintendent of Police, Kolar district, for the week ending 7th May 1898.

On my way to Madamangala, I looked up the villages noted in the margin and found the people very busy in cleaning up and white-washing their houses. The streets were being swept and manure pits cleared of their contents. I made particular enquiries as to the source of their drinking water and was told that it was obtained from draw wells. Where water was obtained from descending wells, I found boards put up prohibiting pollution, &c. Plague leaflets were posted on to boards and hung up in all the village chavadies. This plague scare will tend in a great measure to put village sanitation on a firm basis.

## EXCISE DEPARTMENT.

*Notice No.* 7533—18; *dated the 3rd May* 1898.

SALE OF DRUG SHOPS FOR 1898-99.

Notice is hereby given that the exclusive privilege of selling intoxicating Drugs in each of the shops specified in the Schedule hereto appended, for the twelve months beginning with 1st July 1898 and ending with 30th June 1899, will be put up to public auction at the head-quarters of taluks on the dates specified in the said Schedule, by the Amildars of the respective taluks.

2. Each bidder at the auction will deposit a sum of Rs. 5 or such other reasonable amount as may be fixed by the officer conducting the sale, previous to bidding. Each shop will be knocked down to the approved highest bidder, subject to the formal confirmation by the Deputy Commissioner, who will be at liberty to accept or reject the bid at discretion without assigning reasons for the same. Such formal confirmation will, unless revised by Government, be tantamount to an acceptance of the bid. Parties intending to bid must attend either in person or by duly accredited agents.

3. As soon as the auction is completed, the deposits made by the unsuccessful bidders and not forfeited as hereinafter provided, will be returned to them. As the auction proceeds, the person whose bid is accepted for each shop shall at once deposit a sum equal to 5ths of a month's rent for that shop. Should he fail to do so, the deposit made by him under para 2 will be forfeited, the shop will at once be put up again on the above conditions, and he will be debarred from bidding again for the same or for any other shop.

4. The persons to whom the shops have been knocked down, and who have made deposits as provided in paras 2 and 3, shall also, within seven days from the date of the auction, deposit such further sum as, with the first and second deposits, will make up an amount equal to two months' rent of each shop knocked down to them; and shall take out licenses and execute a counterpart engagement, in the prescribed forms, on the conditions hereinafter set forth. On the failure of any person to make the deposit or to take out license or to execute the counterpart engagement, as aforesaid, the shop will be re-sold at the risk of such person, or if the auction hereby notified has already been completed, will be otherwise disposed of at the discretion of the Deputy Commissioner. In the case of the purchaser's death after the confirmation of the sale, it will be binding on his heirs or assigns.

5. Re-sales effected under para 4 will be at the risk of the defaulting bidder who will forfeit all gain; and in the event of a loss by re-sale, he will make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale. In the latter case, the forfeited deposit will be deducted from the loss arising from the re-sale and the remainder, if any, will be recovered from the bidder in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposit be greater than the loss by re-sale, the whole of such deposit will be credited to Government.

6. The license to be taken out under para 4 above shall be subject to the following conditions, namely:—

(1) The amount for which the privilege has been purchased shall be payable into the Taluk Treasury in equal monthly instalments commencing from July 1898; each instalment shall be regarded as the rent for the month in respect of which it is payable. Each month's rent shall be payable on or before the 20th of the same month on the chellan prescribed for the purpose. If such amount be less than rupees 12, it shall be paid up in not more than three instalments. The deposit of two months' rent made by the licensee will be taken in payment of the rents due for the last two months of the period of the license. Failing payment by the 20th of the same month, the Deputy Commissioner shall at once proceed to recover the arrears together with interest at 6 per cent under the rules in force for the collection of land revenue. No remission or abatement of the rent shall, on any account whatever, be claimable by the licensee.

(2) The licensee shall use such scales and weights as may from time to time be prescribed by Government, and provide himself with the printed forms of accounts and permits or passes for transport of Drugs, which forms shall be purchased from local Excise Officers.

(3) The licensee shall be bound to take over any Drugs which may remain as stock in hand belonging to the out-going licensee on the 1st July 1898 in the existing shop, paying to the latter such compensation for the same as may be fixed by the Deputy Commissioner.

(4) The licensee shall be bound by the rules in force, and which may be issued from time to time by Government.

(5) The remaining terms and conditions shall be as set forth in the prescribed license.

7. In the case of any breach of the above conditions either by the licensee, or with his connivance and privity, by any person in his employment, or in the event of the licensee neglecting to open his shop or to carry on his business with due care and attention, it shall be competent to the Deputy Commissioner to impose upon the licensee a fine not exceeding Rs. 10 for every such breach or neglect, or at the option of the Deputy Commissioner to declare the money deposited with him forfeited, and to cancel the license and to re-sell or to otherwise dispose of the privilege at the risk of the licensee; and all loss thereby caused, together with the loss accruing to Government in consequence of the licensee not carrying on his business by opening his shop on 1st July 1898, shall be made good by him. When a license is cancelled, the rent for the whole period of the license shall become due at once, which shall be recovered together with all losses as if they were arrears of land revenue.

8. The penalties laid down in the last preceding clause shall not exempt the licensee or his employés from prosecution for any offence committed against the Excise laws or rules in force.
